

***Announcing verifications of licensure (for West Virginia Registered Professional Nurses) is shifting to a more secure and electronic process!!!*** This process will facilitate the turnaround for licensure verification to be sent to a state of your choice via [Nursys.com](https://www.nursys.com)<sup>®</sup>. This will be available on July 6, 2017. Only RN licenses are available for this service at this time. For other license types contact the WV RN Board Office directly or go to the [WV RN Board website](https://www.wv.gov/health/boards/rn). The fee of \$30 will be the same.

Nursys<sup>®</sup> is the only national database for licensure verification for registered nurses (RNs). Nursys<sup>®</sup> is designated as a primary source equivalent database through a written agreement with participating boards of nursing (BONs). Nursys is live and dynamic, and all updates to the system are reflected immediately, pushed directly from participating BON databases through frequent, secured data updates. Nursys<sup>®</sup>, a 24/7 nationwide database for verification of nurse licensure, discipline and practice privileges, will make licensure verification immediately available to the board of nursing where an individual is applying for licensure.

For questions regarding verifications or Nursys, contact [Nursys Customer Support](#).

In just a few minutes, you can self-enroll into Nursys e-Notify for free and take advantage of a quick and convenient way to keep up-to-date with your professional licenses. You can receive licensure status updates, track license verifications for endorsement and create and manage multiple license expiration reminders. Keeping on top of license status can help you prevent fraudulent licenses or certificates being issued in your name. Creating an account is quick and easy. Enroll at [Nursys e-Notify](#) and select "As a Nurse" to complete the registration process. Learn more about Nursys e-Notify by viewing a [Nursys e-Notify introductory video](#).
