I would like to first take this opportunity to welcome the newly licensed RNs in West Virginia. Since January 1, 2009 there have been 1,017 applicants for licensure for Registered Professional Nurses. Let us all make our new colleagues welcome and assist them in their transition from student to nursing professional.

For the past six months the number of applicants for licensure has increased by more than 1,000 individuals, yet I wonder, how many nurses we have lost to retirement, relocation, or for other reasons. This may seem like a large number to some, however as we all know the nursing shortage continues to be a problem, not only in the state but the nation. We, as nurses need to remember to not only be kind and compassionate to our patients, but also to one another. Our actions are the best recruiting tools into the noble profession of nursing.

Many of us remember the nurse who inspired and encouraged us to enter the profession. We also remember the nurses who were our mentors, and those whom we admired. It should be a goal for each of us to mentor at least two individuals a year. First the novice nurse, those new to the profession. Let us guide them in a way that will enhance their experience and provide them with the love of nursing. Second, we should all mentor one individual who aspires to become a nurse. The aspiring nurse may be a traditional or a non-traditional student. Nurses come from all walks of life and all stages of life. Providing support, answering questions, or just listening may be all the aspiring nurse needs, but we need to put forth an effort to assist them along the way to fulfilling their dream of becoming a nurse. If we all mentor two individuals per year the nursing shortage may not be as severe in coming years.

At the June 2009 meeting I was re-elected President of the Board of Registered Professional Nurses. I cannot believe it has been six years since I was first elected President. This has been an incredible and at times humbling experience. In protecting the public, the Board is somewhat of a mentor to registered professional nurses by providing access to the law, rules and decision making documents that help empower and guide nurses in making the best decisions. I look forward to fulfilling the duties entrusted to me as President of the Board. Together we will provide the citizens of West Virginia with safe nursing care!

Please enjoy the remainder of the summer and remember to find two individuals to mentor. I promise that you will not be sorry!

Pamela Alderman, MSN, RN

The West Virginia Board of Examiners for Registered Professional Nurses proposed two legislative rule changes during the 2009 Legislative Session and both were passed. These were the rules related to Nursing Education Programs and Limited Prescriptive Authority. In this issue, we are providing the rule related to Limited Prescriptive Authority for Nurses in Advanced Practice. Most rules are a product of negotiation. This rule is no different. We do want to acknowledge the stakeholders working with the Board to develop mutually agreeable requirements that are in the best interest of health care in West Virginia. Although the full complement of changes sought by the Board was not approved, several significant changes were successful. Some of these include:

- **MAO Inhibitors are excluded** except when the Advanced Practice Nurse or Certified Nurse Midwife is in a collaborative agreement with a Psychiatrist.
- **Schedule III and Benzodiazepines** are limited to a 72 hour supply without refill.
- **Schedules IV and V** may be prescribed up to a 90 day supply and have ONE refill.
- **Phenothiazines** are limited to up to a 30 day supply without refill.
- Non-Controlled antipsychotics and sedatives shall not exceed a quantity necessary for a 30 day supply and no more than 5 refills.
- Maximum dose of any drug (including antidepressants) must be consistent with industry guidelines specific to area of practice and included in the collaborative agreement.
- **Shall not prescribe drugs** for a period exceeding six months, except this limitation does not include contraceptives.
- **Removes the restriction** on the prescribing of parenteral medications.

The rule is provided in its entirety so Advanced Practice Nurses, Certified Nurse Midwives and all those working with them have it to reference and then become familiar with the requirements. These rule changes support safe prescribing practices and are beneficial to West Virginians who rely on Advanced Practice Nurses to provide their health care.

I have any questions about the rule please send them along to wvrnboard@state.wv.us.

5.9.d. An advanced nurse practitioner or certified nurse-midwife shall prescribe refills of controlled substances according to current laws and standards.

5.9.e. Drugs considered to be proved human teratogens shall not be prescribed during a known pregnancy by the advanced nurse practitioner or certified nurse midwife. This prohibition includes all Category D and X drugs from the Federal Drug Administration Categories of teratogen risks (21 CFR 201.57). Category C drugs should be given only if the patient benefit justifies the potential risks to the fetus and only after consultation with the collaborating physician.

5.10. The Board may, in its discretion, approve a formulary classifying pharmacologic continued:>>
categories of all drugs which may be prescribed by an advanced nurse practitioner or certified nurse-midwife with prescriptive authority.

§19-8-6. Termination of Limited Prescriptive Privileges.
6.1 The Board may deny or revoke privileges for prescriptive authority if the applicant or licensee has not met conditions set forth in the law or this rule, or if the applicant has violated any part of W. Va. Code §30-7-1 et seq. or '30-15-1 et seq.
6.2 The Board shall notify the Board of Pharmacy, the Board of Osteopathy, and the Board of Medicine within 24 hours after the termination of, or a change in, an advanced nurse practitioner’s or certified nurse-midwife’s prescriptive authority.
6.3 The Board shall immediately terminate prescriptive authority of the advanced nurse practitioner or the certified nurse-midwife if disciplinary action has been taken against his or her license to practice registered professional nursing in accordance with W. Va. Code §30-7-11.
6.4 Prescriptive authority for the advanced nurse practitioner or the certified nurse-midwife terminates immediately if either the license to practice registered professional nursing in the State of West Virginia lapses or the license to practice as a certified nurse-midwife in the State of West Virginia lapses.
6.5 Prescriptive authority is immediately and automatically terminated if national certification as an advanced nurse practitioner or certified nurse-midwife lapses.
6.6 If authorization for prescriptive authority is not renewed by the expiration date which appears on the document issued by the Board reflecting approval of prescriptive authority, the authority terminates immediately on the expiration date.
6.7 Any advanced nurse practitioner or certified nurse-midwife who allows her or his prescriptive authority to lapse by failing to renew in a timely manner, may have his or her prescriptive authority reinstated by the Board on satisfactory explanation for the failure to renew and submission of the prescriptive authority application and fee.
6.8 An advanced nurse practitioner or certified nurse-midwife shall not prescribe controlled substances for his or her personal use or for the use of members of his or her immediate family.
6.9 An advanced nurse practitioner or certified nurse-midwife shall not provide controlled substances or prescription drugs for other than therapeutic purposes.
6.10 An advanced nurse practitioner or certified nurse-midwife with prescriptive authority may not delegate the prescribing of drugs to any other person.

A **Consent Agreement** is a settlement agreement between the Board and the licensee. The agreement is the result of an informal settlement of a complaint filed against a licensee. Consent Agreements with a probation requirement generally include certain restrictions in the practice of a registered professional nurse. Time is counted toward the required probationary period only while the individual nurse is working as a registered professional nurse. If an individual does not work for a period of time, this time is not counted toward the probation requirement. Therefore, some individuals may have a probation license longer than the dates may suggest. A **reprimand** is the least restrictive disciplinary action the Board takes against a license. A licensee can practice if a reprimand has been issued against the license. A **suspension** is generally the result of a violation of a contract between the licensee and the Board. A suspension can also be the resulting action taken by the Board in relation to discipline. A licensee cannot practice nursing while the license is suspended. A **Summary Suspension** is an action taken by the Board when a licensee is considered an immediate threat to public safety. A licensee receiving a Summary Suspension cannot work as a nurse or represent themselves as such. A **Reinstatement** occurs when a licensee has completed the discipline requirements. Reinstatement may return the license to the full unencumbered status or return a suspended license to a probation status, or any other action the Board deems appropriate.
