Consent Agreements, Reprimands, Suspensions**FY 2016****July 2015 through June 2016**

A **Consent Agreement** is a settlement agreement between the Board and the licensee. The agreement is the result of an informal settlement of a complaint filed against a licensee. Consent Agreements with a Probation requirement generally include certain restrictions in the practice of a registered professional nurse. Time is counted toward the required probationary period only while the individual nurse is working as a registered professional nurse. If an individual does not work for a period of time, this time is not counted toward the probation requirement. Therefore, some individuals may have a probation license longer than the dates may suggest.

A **reprimand** is the least restrictive disciplinary action the Board takes against a license. A licensee can practice if a reprimand has been issued against the license.

A **suspension** is generally the result of a violation of a contract between the licensee and the Board. A licensee **cannot practice** nursing while the license is suspended.

A **Summary Suspension** is an action taken by the Board when a licensee is considered an immediate threat to public safety. A licensee receiving a Summary Suspension **cannot work as a nurse or represent themselves as such.**

- 4.** Discussion ensued regarding the information provided regarding the enhanced NLC. Points of consideration included affirming that the public is protected through this regulatory model; talking with the LPN Board about its interest in joining as both Boards must join since it is a “state” participation; considering the time line, costs and changes needed for the licensure database; and considering overall financial impact to the agency. Nancy Atkins made a motion

for the Board to move forward with pursuing the implementation of the Enhanced Nurse Licensure Compact. The second was offered by Doris Burkey. The motion carried.

6. REVIEW AND CONSIDERATION OF LEGISLATIVE UPDATE

6. The Board reviewed, discussed and considered the following bills:

Senate Bill 17 This bill is a carryover bill from 2015. The purpose of this bill is to increase the membership of the Board of Examiners for Registered Professional Nurses from five to ten members. The board will be comprised of nine nurse members and one public consumer member. The nurse members will include three advanced practice registered nurses, two registered nurses,, two nurse administrators and two nursing educators. The bill also sets forth the qualifications of those nurses who may serve. The Board finds the public is protected with the current Board structure. Ann Bostic made a motion to oppose this bill. Doris Burkey offered the second. The motion carried.

Senate Bill 123 The purpose of this bill is to allow for expedited partner therapy treatment for a sexually transmitted disease. The bill permits prescribing antibiotics for the partner of a patient without first examining the partner under certain circumstances. The bill requires counseling by the physician. The bill also requires the Department of Health and Human Resources to develop outreach materials. The bill provides for limited liability for physicians, physician assistants and advanced practice registered nurses who prescribe in an expedited partner therapy setting. The bill provides that health care professionals and pharmacists are not liable for not providing expedited partner therapy or filling certain

prescriptions. The bill makes changes to the licensing portions of the code to make it permissible for the various disciplines to provide expedited partner therapy without disciplinary actions from their respective licensing boards. The Board finds the public is best protected by permitting expedited treatment. Nancy Atkins made a motion for the Board to support this bill. Ann Bostic offered the second. The motion carried.

Senate Bill 433 The purpose of this bill is to allow advanced practice registered nurses and physician assistants to complete orders for physician orders for scope of treatment forms and to pronounce death and sign a death certificate. The Board finds these changes will protect the public and expedite processes by allowing additional qualified health care providers to complete documents related to health care directives and death certificates. Doris Burkey made a motion for the Board to support this bill. Ann Bostic offered the second. The motion carried.

Senate Bill 454 The purpose of this bill is to require prescriptions for opioid antagonists to be logged into the Controlled Substances Monitoring Program and to impose penalties and fines for failure to register for and access the Controlled Substances Monitoring Program as required by code. The Board finds the public is protected by implementing this requirement. Ann Bostic made a motion for the Board to support this bill. Doris Burkey offered the second. The motion carried.

House Bill 4334 The purpose of this bill is to clarify the requirements for a license to practice as an advanced practice registered nurse and to expand the prescriptive authority that may be granted to advanced practice registered nurses (APRNs). The bill repeals separate provisions relating to nurse-midwives because these provisions are part of the APRN license requirements. This bill removes the requirement for collaborative relationships with physicians as a continuing requirement of practice, but retains the collaborative relationship requirement for a two-year period as a prerequisite to qualify for prescriptive authority. The bill permits advanced practice registered nurses to prescribe limited supplies of certain controlled substances. The bill permits the signature of an advanced practice registered nurse to have the same force and effect as that of a physician insofar as patient care documentation is concerned. The bill removes certain notifications. The bill permits certain fees to be set by rule. The Executive Director had a conversation with Angy Nixon, a representative from the West Virginia Nurses Association (WVNA) the author of the bill, to understand the intent for purposes of potential implementation. Points discussed included language in §30-7-15a regarding rule making language, learning this language is the style of the legislative attorney; Same section as it relates to prescribing medications “up to” a certain amount with one refill” this language is a concern in the current rule and would seem to result in the same concern in this law. WVNA plans to seek a modification to this language indicating that the prescription “may not be refillable”; Discussion of the requirement for the Board to send the Verification of Collaborative Agreement to the Boards of Osteopathy, Board of Medicine and the Board of Pharmacy. WVNA is not interested in making this change. The Executive Director recommended to the Board that in her opinion the Verification of a Collaborative Agreement isn’t a point to debate whether through testifying or trying to make a change, as this is a practice that already occurs and we can continue to do it. The Board supported this recommendation.; The final discussion related to a potential fiscal note; Since the Board is funded through licensing fees the bill is revenue neutral as it relates to the State’s Budget. There will be expenses for the Board as it relates to changes in the database and processes. There are funds to support a database change with a reasonable

cost. The Board finds that the changes in the law will provide for public safety by allowing broader practice availability of APRNs for the public. Discussion ensued. The Board's legal counsel offered advice. Doris Burkey made a motion for the Board to support the bill. Ann Bostic offered the second. The motion carried.

House Bill 4340 The purpose of this bill is to require numerous licensing boards in the medical field to place on websites with public access information on completed disciplinary actions in which discipline was ordered, and to require background checks on certain persons being licensed for the first time. The act may be known as Lynette's Law. The Board finds the public is best protected through these requirements. The Board already places discipline on the web site and requires criminal background checks for initial licensure by exam. This bill will facilitate the Board's ability to receive background checks via electronic means and allow for quicker processing. Ann Bostic made a motion for the Board to support this bill. Doris Burkey offered the second. The motion carried.

**7. REVIEW AND CONSIDERATION OF
DAVIS AND ELKINS APPOINTMENT OF

5. REVIEW AND CONSIDERATION OF THE EDUCATION COMMITTEE RECOMMENDATIONS TO THE BOARD

- 5.** Ann Bostic, Education Committee Chairperson, presented the Committee Recommendations to the Board. The recommendations were as follows:

6. PROGRAM REPORTS AND REQUESTS

A. BRECKENRIDGE SCHOOL OF NURSING ITT

1. REVIEW AND CONSIDERATION OF PROGRAM REPORT

6.A.1. Ann Bostic made a motion to accept the Program Report. Nancy Atkins offered the second. The motion carried.

2. REVIEW AND CONSIDERATION OF REINSTATING THE ABILITY TO ADMIT STUDENTS

6.A.2. Discussion ensued. There were 28 students in remediation in October 2015. 3 students decided to no longer pursue nursing; 12 graduated and 13 remain in remediation which means they have completed all courses in the program and they have not passed the exit exam to graduate. The program has mapped the curriculum to the current standards but it has not been implemented as the Board ceased admissions to the program. Concerns were expressed regarding the number of students who have completed the course work and continue to be unsuccessful in passing the exit exam. The national representative shared with the Board that if the program is permitted to admit students, the organization will offer for the remaining 13 to complete the program free of charge. The Calendar Year pass rates are as follows: 2015 - 41.67%; 2014 - 57.14% and 2013 - 56.25% The program isn't currently in a position to seek national nursing accreditation.

Ann Bostic made a motion to enter into Executive Session for the purposes of consulting with legal counsel. Judy Nystrom offered the second. The motion carried.

Nancy Atkins made a motion to adjourn the Executive Session and return to Public Session. Doris Burkey offered the second. The motion carried and the Board returned to Public Session.

Teresa Ritchie made a motion to deny the request to admit students and continue the Board's action to not permit admissions to the program. Doris Burkey offered the second. The motion carried.

**3. REVIEW AND
CONSIDERATION OF
CONTINUED
APPROVAL**

6.A.3. Discussion ensued regarding continued approval of the program. The Board considered all information previously discussed in agenda items 6.A.1. AND 6.A.2. The Board requested information in October, 2015 which had not yet been provided. The national representative who was present during the October meeting, and to whom the request was made, was present at this meeting. Information was provided by the national representative, Mariah Wood, RN, MSN, Managing Director, Instructional Operations, National Dean, Breckinridge School of Nursing and Health Sciences at ITT Technical Institute.

National Information Regarding ITT Nursing Programs As of January 1, 2016:

- 1) There are currently 43 active ITT programs, including Huntington;
- 2) 2014 overall NCLEX -RN First Time pass rates: 55.1%;
- 3) 2015 Overall NCLEX-RN First time pass rate: 56.09%;
- 4) 4 programs in “teach out” status;
 - a. Huntington is not included in this number but has no students/no admissions;
- 5) 3 programs have already “taught out”;
- 6) 8 programs not admitting nursing students;
- 7) Several programs have had issues with several State Boards of Nursing;
- 8) Arizona Board of Nursing took action against a program and it was reported that these issues have now been resolved;
- 9) Accreditation Commission for Education in Nursing (ACEN) accreditation update is:
 - a. 3 programs are in Candidacy Status;
 - b. first site visit scheduled for September 2016;
 - c. 9 programs in ACEN “deferral status”; and,
 - d. 10 more programs expected to submit for Candidacy Status this year.

Discussion ensued. Concern was expressed again regarding failure to meet the NCLEX-RN standard 3 years in a row and regarding students still in the process of graduating.

Ann Bostic made a motion to: 1) continue provisional approval; 2) require a list of student names and contact information for those still in remediation to be submitted immediately; 3) requires a report and update on the progress of the remaining students who have completed all course work yet have been unable to successfully pass the exit exam and graduate; and, a report on curriculum content review, test review, licensure passage rate, and remediation 30 days prior to each Board Education Committee meeting. Nancy Atkins offered the second. The motion carried.

**B. NEW RIVER COMMUNITY
AND TECHNICAL COLLEGE
REVIEW AND
CONSIDERATION OF
APPROVAL STATUS**

6.B. Ann Bostic provided an overview of the Education Committee’s decision to have the program reviewed by the full Board. The history of the program’s approval process was reviewed. Discussion ensued. The program has had difficulty locating qualified faculty. One faculty member presented doesn’t have a WV RN license and falsified the application for licensure. Another faculty member meets the requirements. The program now has 3 full time faculty members and will use qualified adjunct faculty for the sub-specialties. Ann Bostic made a

motion to approve the program faculty member Karen Cooper, and provisional approval upon completion of a successful on-site school visit. Nancy Atkins offered the second. The motion carried.

**C. WEST VIRGINIA NORTHERN
COMMUNITY AND
TECHNICAL COLLEGE:
REVIEW OF INFORMATION
IDENTIFIED DURING THE
RECENT SITE VISIT AND
CONTINUING APPROVAL**

6.C. Ann Bostic provided an overview of the Education Committee's decision to refer the review and consideration of this program to the full Board. Concern was expressed about the following: 1) NCLEX-RN pass rate at all three campuses for the generic Associate Degree Programs. The LPN-Associate Degree program pass rate meets the standard. The Director related the poor pass rate to not having enough faculty and time to mentor, guide and teach the students. The program admits 110 students a year. 46 will graduate this year with a 45-50% attrition rate. Admissions for this fall have not been sent out as the Director was waiting to see what the Board may decide about the program.; 2) Faculty workload - during the recent site visit it was learned that all faculty are on overload and one faculty member had 600 contact hours in a semester. Since the Education Committee met, the Associate Director has prepared the On Site Visit Report and provided additional information. The Board reviewed the program report on curriculum implementation, licensure passage rates which was 70.5% in 2015 for the Wheeling ADN program; 76.47% in 2015 for the Weirton ADN program; and, 85.71% in 2015, 71.4% in 2014, and 69.2% in 2013 for the New Martinsville ADN program. The Board reviewed that the Wheeling campus LPN-ADN program 2015 NCLEX-RN calendar year pass rate was 100% and that admissions were suspended in this program in the fall of 2014 with the implementation of the new curriculum. Additional information reviewed by the Board during the meeting includes but is not limited to:

- 1) The following information from the recent site visit on:
 - a. wireless Internet access issues preventing or delaying student access to online course e-books and materials;
 - b. Donna Hans, MSN, RN, the Health Science Division Chair and nursing program faculty preparing and administering the Health Science budget and is a direct report to Linda Shelek, MSN, RN, the associate degree nursing programs nurse administrator as faculty of the nursing program;
 - c. Linda Shelek, MSN, RN, the associate degree programs nurse administrator directly reports to Donna Hans, MSn, RN, the Health Science Division Chair for budget requests;
 - d. the associate degree programs nurse administrator lacks access to a program budget;
 - e. students were reallocated from the Weirton campus to the Wheeling campus due to faculty vacancy; and,

- f. secretarial support is lacking for reporting and record keeping;
- 2) The annual report including the budget; and,
- 3) The Accreditation Commission for Education in Nursing (ACEN) report from July 2015.

The program Director reported to the Board that there are not enough faculty to implement the program at the current level of admissions and attributed the 45-50% attrition rate to faculty not having the time to guide and advise the students.

11:20 AM Teresa Ritchie made a motion to go into Executive Session for advice from legal counsel. Ann Bostic offered the second. The motion carried and the Board moved in to Executive Session.

11:35 AM Ann Bostic made a motion to return to Public Session. Judy Nystrom offered the second. The motion carried and the Board moved into Public Session.

Discussion resumed. The Board reviewed and identified the following program deficiencies:

- 1) 6.1.a.4. noncompliance with school's stated philosophy/mission, program design, objectives/outcomes, and or policies.
- 2) 6.1.a.7. student enrollments without sufficient faculty, facilities and/or patient census.
- 3) 6.1.a.8. failure to maintain at least 80% passing rate on the licensure examination by first-time candidates;
- 4) 6.1.a.11. Other activities or situations that demonstrate to the Board that a program is not meeting legal requirements and standards, such as, failure to provide or prevent delays in student wireless access to online course e-books and materials;
- 5) 10.1.c. Administration of the nursing education unit. The nursing education unit shall be administered by a nurse who (a) holds a graduate degree with a major in nursing, (b) has 5 years professional nursing experience, 2 years of which were teaching in a professional nursing program, and (c) holds a license as a registered professional nurse in the state of West Virginia. In addition, qualifications are comparable to those qualifications required of other faculty in the governing organization. The administrator of the nursing education unit is responsible for the following:
 - a) 10.1.c.4. Preparing and administering the budget.
- 6) 11.4 assignment and workload of nursing faculty. The governing organization shall hire and maintain sufficient faculty with the experience and competence in the respective specialties of nursing education to accomplish the goals or outcomes of the nursing education unit. Assignment and workload shall be consistent with the governing institution and includes clinical lab. Workload should provide for regeneration, reflection and wellness opportunities for nursing faculty. Factors to be included but not limited to when establishing the ratio of faculty to students should include:
 - 11.4.a. the students' level of knowledge/skill;
 - 11.4.b. course objectives;

- 11.4.c. acuity level of clients;
- 11.4.d. affiliating agency's goal and priorities;
- 11.4.e. percentage of temporary personnel staffing;
- 11.4.f. physical layout of facility;
- 11.4.g. current usage by other affiliating students; and
- 11.4.h. the Board's standards.

Teresa Ritchie made a motion to accept the Program Report as submitted; to cease admissions to all programs; to place all traditional programs on provisional approval; to require that all faculty be retained to allow for program development and attention to student needs; to note that the LPN-Associate Degree program has been suspended until it can begin again in step with the Consortium Curriculum; the Director is required to submit Program Reports at least 30 days prior to the Education Committee meeting regarding the number of faculty, faculty salaries, faculty workload in accordance with 11.4a.h; progress of current students; secretarial support; and status changing the budget process such that the Director administers the program budget according to 10.1.C.4. Ann Bostic offered the second. Discussion ensued. The motion did not carry.

Discussion resumed. Teresa Ritchie made a motion to accept the Program Report provided; to cease admissions on the New Martinsville campus; to limit admission to 15 on the Weirton campus and to limit admissions to 35 on the Wheeling campus for the ADN and LPN-RN programs; to place all traditional programs on provisional approval; to note that the LPN-Associate Degree program has been suspended until it can begin again in step with the Consortium Curriculum; Continued full accreditation status for the LPN-ADN program; Changed the accreditation status to provisional for the Wheeling and Weirton campuses; the Board continued provisional approval for the Martinsville program; and the Director is required to submit Program Reports at least 30 days prior to the Education Committee meeting regarding the curriculum implementation, licensure passage rates, faculty vacancy, faculty workload, faculty salaries, faculty development and student programs 30 days prior to each Education Committee meeting.

Doris Burkey offered the second. Discussion ensued. The motion carried.

**D. WEST VIRGINIA
UNIVERSITY INSTITUTE OF
TECHNOLOGY (WVUIT)
REVIEW AND
CONSIDERATION OF
LICENSURE PASS RATE AND
CONTINUED APPROVAL**

Board President Tara Hulsey relinquished the Chair to Ann Bostic, Education Committee Chairperson for the review and consideration of this agenda item. The Board President, Teresa Ritchie, Board Secretary and Nancy Atkins, Board member each recused themselves from the review and discussion of this agenda item and left the room.

6.D. Ann Bostic presented to the Board the reason the Education Committee deferred this program review to the full Board as being the licensure pass rate for this year and the historic pattern regarding the pass rate warranted review by the Board. Discussion ensued. The pass rate for WVUIT for calendar year 2015 was 69.23%, in 2014 it was 81.48% and in 2013 it was

43.75%. The program has not met the Board's NCLEX-RN passing standards 4 times in the past 6 years. Board previously limited admissions to the program for the purposes of providing an opportunity to review the curriculum and complete mapping and blueprinting. According to the program director Dr. Evelyn Klocke, EdD, RN, a class has not yet graduated having completed the full compliment of the curriculum. Discussion ensued. Doris Burkey made a motion to continue provisional approval of WVUIT, continue limited admissions to 35 students for Fall admissions, to require a report to be submitted to the Board 30 days in advance of an Education Committee meeting addressing the progress related to curriculum implementation and the NCLEX-RN action plan previously submitted. Ann Bostic offered the second. The motion carried.

The Board President, Teresa Ritchie, Board Secretary and Nancy Atkins, Board member returned to the room and rejoined the meeting.

**E. WHEELING JESUIT
UNIVERSITY REVIEW AND
CONSIDERATION OF
PROGRAM LICENSURE PASS
RATE AND CONTINUED
APPROVAL**

6.E. Ann Bostic presented to the Board the reason the Education Committee deferred this program review to the full Board as being the licensure pass rate and high Director turnover of 4 new directors in the past 4 years. The NCLEX-RN pass rate in calendar year 2015 was 52.17%, in 2014 47.06% and in 2013 71.43%. The Board's standard is 80%. The current Director has been in her position since July 2015. Prior to her appointment, Dr. Ann Baker, DNP, RN was approved in July 2013, and Dr. Monnica Kennison, EdD, RN was approved in June 2011. There have been 4 Directors in 5 years. Discussion ensued. Ann Bostic made a motion to approve the program report, to require a report regarding the licensure pass rates, require that curriculum review and mapping to current standards be provided to the Board 30 days prior to the June Education Committee Meeting, to continue provisional approval and continue limitation on admissions to 24 students one time per year for the BSN program and 16 students one time a year for the BA-BSN program. Teresa Ritchie offered the second. The motion carried.

Board staff will move forward with taking steps to secure an ORD number from the Federal Bureau of Investigations so the Board may receive electronic results of criminal background checks.

**A. REVIEW AND
CONSIDERATION OF
HB4334**

7.A. The Executive Director provided an update on the bills of interest to the Board. HB4334 related to Advanced Practice Registered Nurses and Limited Prescriptive Authority did pass and is awaiting the Governor's signature. The bill includes granting APRNs the authority to sign certain health related documents and death certificates. The bill also changes the language related to Schedule III drugs in that it permits prescribing for a 30 day period with no refill and removes the limitation to a 72 hour supply. The bill establishes a Joint Advisory Council, its membership, and tasks the Council may perform. The Board directed staff to send an email to all APRNs with a valid email a notice regarding the Joint Advisory Council to solicit interested persons from which the Board may select the 6 APRN members.

4. The Board reviewed its current position statement regarding the Advanced Practice Registered Nurse (APRN) delegating to Medical Assistants in the out patient clinical setting. Discussion ensued. The discussion then centered on the various exams available to Medical Assistants.
