

APRN Prescriptive Authority Privilege Requirements WV Code 30-7-1 et. seq. and code of Legislative rule 19-08

1. Submit RXA application and pay fee located in the nurse portal. This application becomes available in the portal when you have an active WV APRN license.
2. Eligibility requirements are:
 - A.) the successful completion of an advanced pharmacology graduate level course approved by the Board of not less than 45 pharmacology contact hours
 - B.) documentation of the use of pharmacology in clinical practice in the education program
 - C.) evidence of 15 graduate level pharmacology contact hours in advanced pharmacology completed within 2 years prior to application for prescriptive authority
 - D.) a collaborative agreement on forms provided by the Board with a licensed physician holding an unencumbered West Virginia license or an unencumbered license from a contiguous state or the Veterans Administration for the first 3 years (36 months) of active prescriptive authority OR documentation evidencing at least 3 years (36 months) of active prescriptive authority in WV or another state.

Instructions are provided at the top of each application.
