A Consent Agreement is a settlement agreement between the Board and the licensee. The agreement is the result of an informal settlement of a complaint filed against a licensee. Consent Agreements with a Probation requirement generally include certain restrictions in the practice of a registered professional nurse or advanced practice registered nurse or dialysis technician. Time is counted toward the probationary period only while the individual is working in the role as licensed or certified by the Board. If an individual does not work for a period, this time is not counted toward the probation requirement. Therefore, some individuals may have a probation license longer than the dates may suggest.

Reprimand is the least restrictive disciplinary action the Board imposes on a licensee. A Reprimand may be with or without terms the individual is required to comply with during the period. A licensee can practice if a Reprimand has been issued against the license. Probation means the licensee is permitted to work as licensed or certified but must practice under specific terms and conditions for a specified period of time outlined in the agreement.

Suspension is generally the result of a violation of a contract between the licensee and the Board. A Suspension can also be the resulting action taken by the Board in relation to discipline. A licensee cannot practice nursing while the license is suspended.

Summary Suspension is an action taken by the Board when the licensee is considered an immediate threat to public safety. A licensee receiving a Summary Suspension cannot work as a nurse or dialysis technician or present themselves as such.

Reinstatement occurs when a licensee has completed the discipline requirements.

Reinstatements may return the licensee to the full unencumbered status or return a suspended license to a Probation status, or any other action the Board deems appropriate.

Revoked is significant disciplinary action taken by the Board. The licensee cannot practice nursing while the license is revoked.
