

Administration of Anesthetics

West Virginia Board of Registered Nurses

Position Statement

In accordance with West Virginia Code Chapter 30, Article 7, Section 15, administration of anesthetics provides that:

(a) A certified registered nurse anesthetist may administer anesthesia in cooperation with a physician, dentist, or podiatrist when providing the anesthesia.

(1) As used in this section, “cooperation” means a process in which the certified registered nurse anesthetist and the physician, dentist, or podiatrist work together as a team with each contributing an area of expertise at their individual and respective levels of education and training. At all times during such cooperation, the medical or dental care of the patient is directed by the physician, dentist, or podiatrist.

(2) A dentist may cooperate with a certified registered nurse anesthetist under this section only if he or she holds an anesthesia permit pursuant to article §30-4A-1 *et seq.* of this code.

(3) The physician, dentist, or podiatrist is not liable for any act or omission of a certified registered nurse anesthetist who orders or administers anesthetics under this section.

(b) A certified registered nurse anesthetist lawfully may perform acts that determine, prepare, administer, and monitor anesthesia care and anesthesia care-related services if he or she:

(1) Has at any time held a registered professional nursing license under this article; and

(2) Holds a current advanced practice registered nurse license under this article; and

(3) Has completed successfully a nurse anesthetist educational program at a nationally accredited graduate or post-graduate advanced practice registered nurse educational institution; and

(4) Holds current certification by a national certifying body recognized by the Board of Nursing in the advanced practice registered nurse role and population foci appropriate for educational preparation.

(c) A certified registered nurse anesthetist does not have independent practice authority.

(d) A licensed advanced practice registered nurse practicing in the role of certified registered nurse anesthetist may only use the title "certified registered nurse anesthetist", "CRNA", "advanced practice registered nurse", or "APRN".

The West Virginia Board of Registered Nurses (Board) adopts, it is **not** within the scope of practice for a registered professional nurse who is not a licensed advanced practice registered nurse certified registered nurse anesthetist (APRN CRNA) to administer anesthetics for the purpose of general anesthesia as defined by the West Virginia Uniform Controlled Substance Act [WV Code Chapter 60A-2 et. seq.; WV Code/law 30-7-1 et. seq., WV Code/law 30-7-15; WV 19 series code of legislative rules, and the scope and delegation document decision-making model (Ballard, et. al., (2016); NCSBN-ANA, (2019)].
