ANNUAL REPORT OF THE WEST VIRGINIA BOARD OF EXAMINERS FOR
REGISTERED PROFESSIONAL NURSES

TO THE GOVERNOR
OF THE STATE OF WEST VIRGINIA

THE HONORABLE EARL RAY TOMBLIN

FOR THE PERIOD
JULY 1, 2012 TO JUNE 30, 2014

PREPARED IN ACCORDANCE WITH
CHAPTER 30, ARTICLE 7, SECTION 4
OF
THE CODE OF WEST VIRGINIA

SUBMITTED FOR THE BOARD BY:
LAURA SKIDMORE RHODES, MSN, RN
EXECUTIVE DIRECTOR

WEST VIRGINIA BOARD OF EXAMINERS FOR
REGISTERED PROFESSIONAL NURSES
101 DEE DRIVE, SUITE 102
CHARLESTON, WEST VIRGINIA 25311-1620

STATE OF WEST VIRGINIA
BOARD OF EXAMINERS FOR REGISTERED PROFESSIONAL NURSES
101 Dee Drive, Suite 102
Charleston, WV 25311-1620

December 12, 2014

Dear Honorable Governor Tomblin:

The West Virginia Board of Examiners for Registered Professional Nurses (Board) is pleased to submit the Annual Report which covers the activities during the 2013 and 2014 fiscal years.

For over one hundred years of nursing regulation the Board has been vested in their mission to protect the citizens of West Virginia through the regulation of the practice of registered professional nurses. At the end of the fiscal year there were 31,498 registered professional nurses regulated by the Board. Board members and staff provide presentations throughout the state in an effort to assure the most current information is available to those providing nursing care to those in West Virginia. The Board supports the role of advanced practice nurses in providing for the health care needs of West Virginia. Over 902 advanced practice registered professional nurses have active Prescriptive Authority Privileges granted by the Board.

The Board also regulates Dialysis Technicians. There are 162 certified Dialysis Technicians in West Virginia serving the needs of the dialysis population.

The Board fully implemented *West Virginia Restore*, the recovery and monitoring program for registered professional nurses. Additional information about this program is located on pages 177-189. Current updated information regarding substance abuse education opportunities are included in the Board's news magazine and on its website.

The Board remains open for communications with other agencies, the public and licensees through an Open Forum time during each Board meeting, the newsletter, the phone system, mail, facsimile and the Internet with e-mail (rnboard@wv.gov) and web page (www.wvrnboard.com).

The Board and its staff are available to answer questions about this report or other matters pertaining to the regulation of registered professional nursing and dialysis technicians in the State of West Virginia.

Sincerely,

A handwritten signature in cursive script that reads "Robin Walton".

Robin Walton, EdD, RN
Board President

Overview of Board Activities and Responsibilities

The mission of the West Virginia Board of Examiners for Registered Professional Nurses (Board) is to promote and protect public health, safety and welfare through the regulation of the practice of registered professional nurses. Further, the Board is authorized to regulate the practice of Dialysis Technicians to protect public health, safety and welfare. The West Virginia Legislature has empowered the Board to perform a number of functions to ensure this mission is accomplished. During the 2013 Legislative Session rules were passed related to the requirement to have a license to practice as an Advanced Practice Registered Nurse (APRN) in West Virginia, Limited Prescriptive Authority related to prescribing for chronic illnesses, requirements for querying the Pharmacy Database in relation to prescribing controlled substances, and increasing licensure fees. Half of the fee increase is dedicated to the implementation of the recovery and monitoring program, **not** a treatment program, for nurses with substance use disorders and qualifying mental health conditions, "*West Virginia Restore*". This program was formally started on July 1, 2012. Part of this effort will include educating nurses and employers across the state regarding substance use disorders, recognizing potential substance misuse in themselves and others, and how to contact *WV Restore* for support. Early recognition of an issue and immediate intervention will provide the nurse with a better opportunity for rehabilitation and continuation of employment. There are currently 87 registered professional nurses enrolled in this program.

The Board is authorized to, among other things, adopt and amend rules and regulations, accredit and prescribe standards for educational programs preparing persons for registered professional nursing licensure, examine, license and renew licenses, and conduct hearing(s) upon charges calling for discipline of a licensee or revocation or suspension of a license.

The Board is also authorized to adopt and amend rules and regulations, accredit and prescribe standards for educational programs preparing persons for Dialysis Technician certification, certify and renew certifications, and conduct hearing(s) upon charges calling for discipline of a certification or revocation or suspension of a certification.

In order to fulfill its mission the Board has developed specific goals. These goals are found on page 7 of this report. Included with the Board's goals and objectives are performance measures.

In 2004 the West Virginia Center for Nursing (Center) was created to establish a statewide strategic plan to address the nursing shortage in the state and to facilitate recruitment and retention of nurses. The Center is funded in part by a supplemental fee added to the license renewal for RN's and LPN's. The Board continues to work with and support the efforts of the Center.

This overview provides a brief description of the Board's activities over the past year in the fulfillment of its mission. Also provided with this report are statistical data which show the Board's licensure statistics over the past two years. The majority of these reports begin on page 72. Additionally, to give an even broader view of the

Overview Continued

Board's activities, included with this year's report are tables and charts covering a ten (10) or twenty (20) year time period revealing how the number of registered professional nurses has increased or decreased during the time frame, the number of students that have graduated from nursing programs throughout the state during this time, disciplinary actions that have taken place, as well as other interesting facts regarding the functions of the Board. This information can be found throughout the Report. A Graph Table of Contents is provided for the reader's convenience (see page iii).

One of the most important ways the Board achieves its mission is ensuring that it is easily accessible to the public, its licensees and to other state and national agencies. To that end, the Board convenes an average of 10 days a year, with Committees meeting an additional 4 days a year. The law requires one meeting per year. In accordance with the law, Board meeting notices are filed timely with the Secretary of State. The agenda for each meeting is also provided to each nursing school, to Directors of Nursing across the state, and interested parties. A list of Board meeting dates is provided in this report on page 12. Notice of the meeting is also included in the Board newsletter, which is published at least twice a year and mailed to every licensee and to those persons expressing an interest in receiving the newsletter, and on the web site. A copy of each newsletter is located on the Board's web site at www.wvrnboard.com.

At the beginning of each Board meeting there is an Open Forum. Open Forum allows anyone in attendance at the meeting the opportunity to raise issues of concern with the Board and to have an open discussion with Board members.

The Board office is available by telephone twenty four hours a day, seven days a week through a voice mail system 1-877-743-6877 (NURS). During regular business hours, Monday through Friday, the office is staffed to respond to questions by phone, facsimile, e-mail, U.S. mail and from persons coming to the office. A list of all Board staff is on page 13 of this report. Additional avenues the Board utilizes to remain accessible to the public are by way of e-mail and web page. The Board's e-mail address is rnboard@wv.gov. The web site address is www.wvrnboard.com. Most of the Board's applications are available for downloading from the web.

The Board has informational brochures available to the public on continuing education, discipline and the complaint process. The Board maintains a number of other brochures from organizations regarding patient rights and nurse/patient boundaries. Because the Board sees educating the public as one of its priorities, it is available to provide information through presentations throughout the state. These presentations cover Board functions, the licensing process, mandatory continuing education, advanced practice, prescriptive authority, discipline and how to file a complaint.

One of the main functions of the Board in the fulfillment of its mission is the regulation of the nursing programs in the State of West Virginia. Currently, there are 23.

Overview Continued

A list of the schools of nursing providing both baccalaureate and associate degrees, as well as other programs not requiring Board approval, is provided in this report on pages 24 through 28. Also included in this report are statistics on the number of graduates from baccalaureate and associate degree programs and statistics on licensees holding advanced degrees.

The accreditation process of a school of nursing goes far beyond the initial accreditation of that school. It is an ongoing process. Each year every Board approved program is required to submit an Annual Report to the Board for review. The Annual Report covers every aspect of the program, from the financial status to the degrees held by instructors and most importantly the quality of the information being taught to the student. The Board also conducts a number of on-site visits to programs to have a hands on view of the activity taking place at the school. During the on-site visit, Board representatives have the opportunity to view the quality of the information contained in the library for nursing students and to also speak with nursing students on campus regarding the nursing program. In FY2014 the Board performed 9 visits to campuses in the state for purposes of On-Site Accreditation visits and follow up visits.

Another Board function is to provide a test for graduates to successfully complete for initial licensure. Currently, that test is known as the National Council Licensure Examination -RN (NCLEX-RN). The candidate may take the computerized examination at any test center in the United States, U.S. Territories, or several countries across the world provided the state where they wish to hold initial licensure is designated, and an application specific to that state has been completed and approved.

The national pass rate for first time candidates taking the licensure examination during Calendar Year 2013 was 90.34%. West Virginia's percentage was 88.87%. This percentage ranks West Virginia as forty second (42) out of fifty-five (55) member board jurisdictions. This information is provided through a report from the National Council of State Boards of Nursing, Inc.

From the graduates who pass the licensing examination who are able to hold the title registered professional nurse, there are a number of individuals who pursue advanced certifications and practice in more specialized areas. The Board regulates advanced certifications and practice in more specialized areas. The Board regulates 1,540 nurses with an Advanced Practice Registered Nurse (APRN) license. The APRN license was initiated July 1, 2013. This number includes more than 902 nurses having prescription writing privileges granted by the Board. A breakdown of this information is found on pages 110 through 113 of this report. As part of the prescription writing privilege application process, the Board of Medicine, the Board of Pharmacy, the Board of Osteopathy, and the Federal Drug Enforcement Agency are notified of each new prescriptive authority privilege issued.

Because nurses are continuing to specialize in different areas, the Board's approach to discipline continues to evolve. Disciplinary cases continue to increase in

Overview Continued

complexity. Board staff process a significant number of discipline related records. In past years the majority of complaints against registered nurses, resulting in action, involved the use, misuse and abuse of drugs and alcohol. Although these issues still make up the majority of the complaints, there is an increase in practice related issues, such as documentation errors and the lack of competency. Health care institutions are utilizing more unlicensed individuals than ever before. With the predicted decrease in available registered nurses and the increase in work demand on the nurses who are available, the amount of complaints with practice issues will surely rise over the next several years. Statistical information regarding the Board's disposition of complaints and disciplinary action taken over the past two (2) years is provided on pages 72 through 75 of this report. A pie chart on page 73 represents a summary of disciplinary action for the past ten years.

In order to completely fulfill its mission to protect the public, the Board recognizes the necessity in maintaining open communication with other related national and state agencies. In that regard, the Board always sends representatives to meetings of the National Council of State Boards of Nursing, Inc. (NCSBN) and is actively involved in the discussion and voting processes which occur at these meetings. The Executive Director, Laura Skidmore Rhodes, is a past President of the Board of Directors for NCSBN and currently serves on the Finance Committee.

The Board, in conjunction with NCSBN, developed an on-line continuing education program for registered professional nurses about the current WV law. This program offers two (2) continuing education hours which qualify for inclusion in the total twelve (12) hour requirement each year.

Locally, the Board keeps an ongoing alliance with the West Virginia State Board of Licensed Practical Nurses (LPN Board). Because the two agencies generally have to address similar topics and certainly in the employment arena they usually function together, it is important to the Board to ensure that communication lines are open with this agency. In 1995, the Joint Nursing Regulatory Committee was formed to enhance communications between Board and the LPN Board, and between the Board and constituents. This committee led to the practice of holding a yearly Joint RN/LPN Board meeting. Together the two Boards publish a document entitled "Criteria for Determining Scope of Practice for Licensed Nurses and Guidelines for Determining Acts That May Be Delegated or Assigned by Licensed Nurses" or simply the "Purple Book". This document was recently revised.

Board members and staff are diligent in their efforts to assure Board accomplishes its mission and goals. Staff ensure that records reflecting the Board's financial status are accurately maintained. This information is provided on pages 14 through 19 of this report. Board members are kept thoroughly apprised of all operations by Board staff.

Overview Continued

The Board has regulated Dialysis Technician Education programs and Dialysis Technicians since 2005. There are 162 certified dialysis technicians in West Virginia. Information about Dialysis Technicians is provided on pages 191 through 210.

As previously stated, there continues to be a predicted decrease in the number of registered nurses available for employment in upcoming years. This decrease will not only affect West Virginia, but will be a national decrease. However, because of the size of our state, the effect on West Virginia will be easily felt. As reflected on pages 76 through 81 of this report, licensees have steadily endorsed out of West Virginia to other states, with the exception of FY05 when more nurses endorsed into WV. This is directly related to an influx of nurses preparing to assist a West Virginia hospital in the event of a strike. As the citizenship ages and illnesses increase, the need for registered nurses will increase. More nurses are still needed. Not having enough nurses makes it even more important for the West Virginia Board of Examiners for Registered Professional Nurses to fulfill its goal to protect the public.

When the impending nursing shortage was recognized, schools of nursing across the state increased enrollment in their nursing programs thus reflecting the slight increase in the number of registered nurses. There are approximately 2,946 students enrolled in West Virginia schools of nursing to obtain an initial degree in nursing.

The West Virginia Board of Examiners for Registered Professional Nurses continues to fulfill its mission of protecting the citizens of West Virginia through the regulation of the education and practice of 31,489 registered professional nurses, as well as the 162 Certified Dialysis Technicians.

Should you have any questions, suggestions or desire more information please contact this office at (304) 558-3596 or 1-877-743-NURSE (6877) or write to 101 Dee Drive, Suite 102, Charleston, West Virginia, 25311-1620. Our e-mail address is rnboard@wv.gov and our web page is www.wvrnboard.com.

**WEST VIRGINIA BOARD OF EXAMINERS
FOR REGISTERED PROFESSIONAL NURSES**

MISSION

The West Virginia Board of Examiners for Registered Professional Nurses established to promote and protect public health, safety, and welfare through the regulation of registered professional nurses and dialysis technicians.

**GOALS AND
OBJECTIVES**

In accordance with WV Code §30-7-1 et seq. the Board will:

1. Function according to the Code of Conduct.
2. Be accessible to the public.
3. Assure the quality of the basic education process for registered professional nurses.
4. Assure the quality of the basic education process for the dialysis technician.
5. Assure initial and continuing competence of the registered professional nurse.
6. Assure initial and continuing competence of the dialysis technician.
7. Define the scope of practice for registered professional nursing and advanced practice nurses.
8. Define the scope of practice for the dialysis technician.
9. Provide a disciplinary process.
10. Review issues related to the nursing shortage.
11. Support the mission of the West Virginia Center for Nursing
12. Support the nurse health program, WV Restore.

**STATUTORY
HISTORY**

**PERFORMANCE
MEASURES**

The Board of Nursing is mandated under Chapter 30 of the West Virginia Code to:

1. Review and evaluate National Council of State Boards of Nursing registered nurse licensure examination scores of each program in relation to the standard.
2. Conduct on-site visits to at least two nursing education programs annually.
3. Issue licenses to qualified persons in a timely fashion.
4. Provide educational information to registered nurses, dialysis technicians, nursing education programs, employers and the public related to:
 - a. Discipline
 - b. Orientation to the Board
 - c. Advanced Practice
 - d. Licensure
 - e. Practice Issues
 - f. Conditions that affect an individual's safe practice
5. Process complaints from health care professionals and the public in a timely fashion.
6. Respond expeditiously to public requests related to Board operations.
7. Evaluate regulatory solutions to address borderless health care delivery.
8. Provide and evaluate the effectiveness of the nurse health program WV Restore.
9. Provide multiple modes of communication opportunities with the Board.
10. Establish a Practice Committee for discussion of practice issues as needed.
11. Seek legislative authority to obtain criminal background checks on all new applicants.

**RECOMMENDED
IMPROVEMENTS**

Continue updating computer equipment and database program. Evaluate and provide personnel, equipment, and database programs.

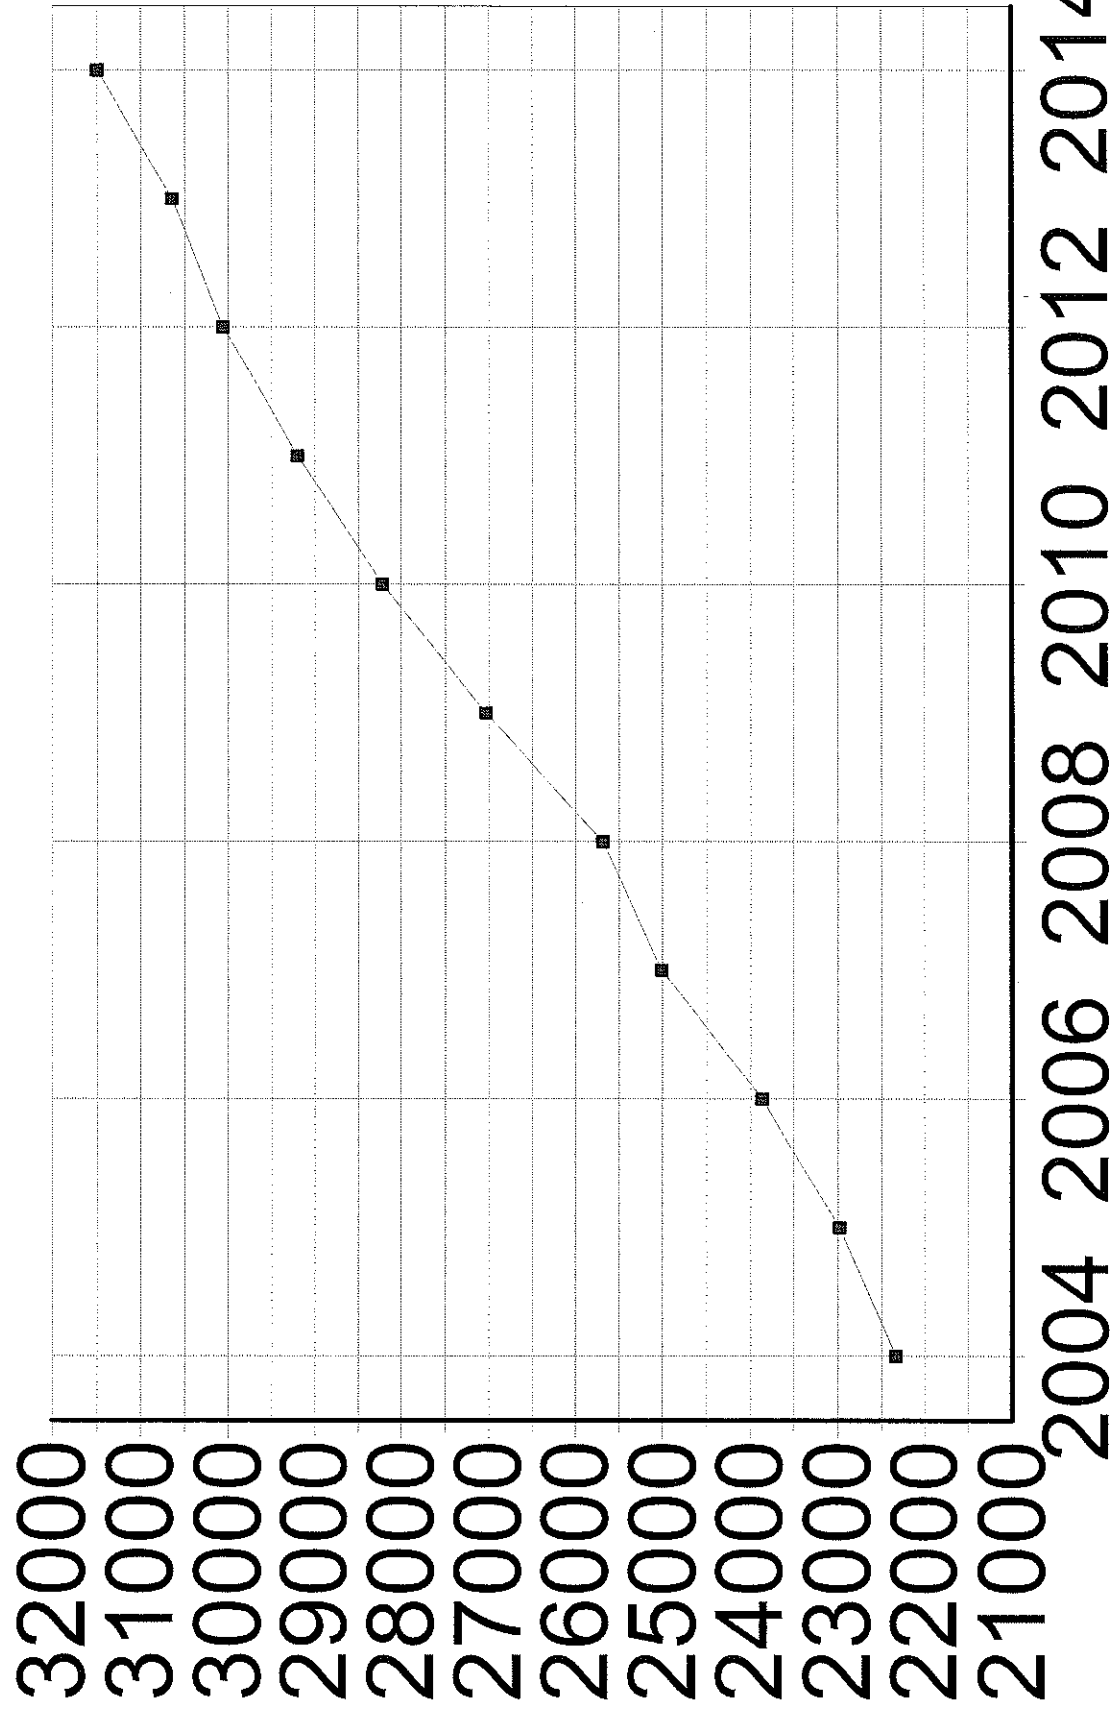

Reviewed and revised by the Board 6/14/1999; 6/13/2000; 6/13/2001; 6/12/2002; Reaffirmed 6/12/2003; Reviewed and revised by the Board 6/15/2004; 6/15/2005; 6/14/2006; 6/13/2007; Reaffirmed 6/12/2008; Reviewed and revised 6/17/09; Reviewed and revised 6/16/10; Reviewed and revised 6/17/11; Reviewed and revised 6/13/12; reviewed and revised 6/12/13; Reaffirmed 6/10/14.

Total Number of Registered Professional Nurses

At the end of FY2014 were 31,498 registered professional nurses holding an active West Virginia license. This is an increase of 9,165 since 2004. This number is 855 more than in FY2013. Registered Professional Nurses remain the largest group of licensed health care providers in West Virginia.

Deanna Lane, RN Employed July, 2013	Nurse Investigator
Deloriah Logan Employed June, 2013	Office Assistant III

RECEIPTS AND DISBURSEMENTS

The Board is required to be self-sustaining and does not receive any revenue from the State's General Revenue Fund. The bar graph on page 15 indicates the receipts and disbursements since 2004. During FY2014 the fees received for the Center for Nursing (\$277,620.00) are transferred to the Center's Fund, and Fines (\$49,985.00) are transferred to the General Revenue Fund. Both amounts are represented separately on the receipts graph.

EDUCATION

The education section of the Board has grown significantly over the past ten years. One of the Board's functions is to provide a test (NCLEX-RN) for graduates of accredited nursing programs to pass successfully for initial licensure. The education section reviews the applications and transcripts to assure qualifications are met. West Virginia NCLEX-RN pass rates are monitored annually. Advanced practice requirements including midwifery and prescriptive authority are processed through the education section of the Board, assuring qualifications, credentials and educational requirements are met.

The Board is responsible for the regulation of West Virginia nursing programs preparing registered professional nurses for initial licensure. The Education section of the Board reviews reports, faculty qualifications, changes reported by the programs and performs accreditation site visits to assure the requirements in the law are met. Statistics such as program pass rates and graduate numbers are maintained by the education section of the Board.

The education section also serves to provide access to information related to the practice of registered professional nursing. Educational brochures, presentations and responding to practice questions via telephone, email and written requests are among the avenues the Board provides information. The Board developed an on-line continuing education course about the law pertaining to West Virginia registered professional nurses.

Continuing education requirements for registered professional nurse are monitored by an auditing process for compliance with the law. Licensees are randomly selected for auditing of their continuing education completed during a reporting period. Auditing of licensees occurs after every reporting period. The education section also reviews any requests for waivers of the continuing education requirement. Continuing Education Providers may apply for a providership with the Board. Providers are audited for compliance with requirements in 19CSR11 annually.

GRADUATES OF SCHOOLS OF NURSING PREPARING INDIVIDUALS FOR INITIAL LICENSURE AS A REGISTERED PROFESSIONAL NURSE

1994 - 2014

West Virginia has 21 schools of nursing which offer a total of 22 nursing programs preparing individuals for initial licensure. There are other programs which offer additional degrees for those already licensed. This graph shows the number of individuals graduating from schools of nursing in West Virginia to prepare for **initial licensure**. More schools are graduating nursing students at various times throughout the year in addition to the traditional spring graduation. Schools are now reporting the number of graduates in a calendar year.

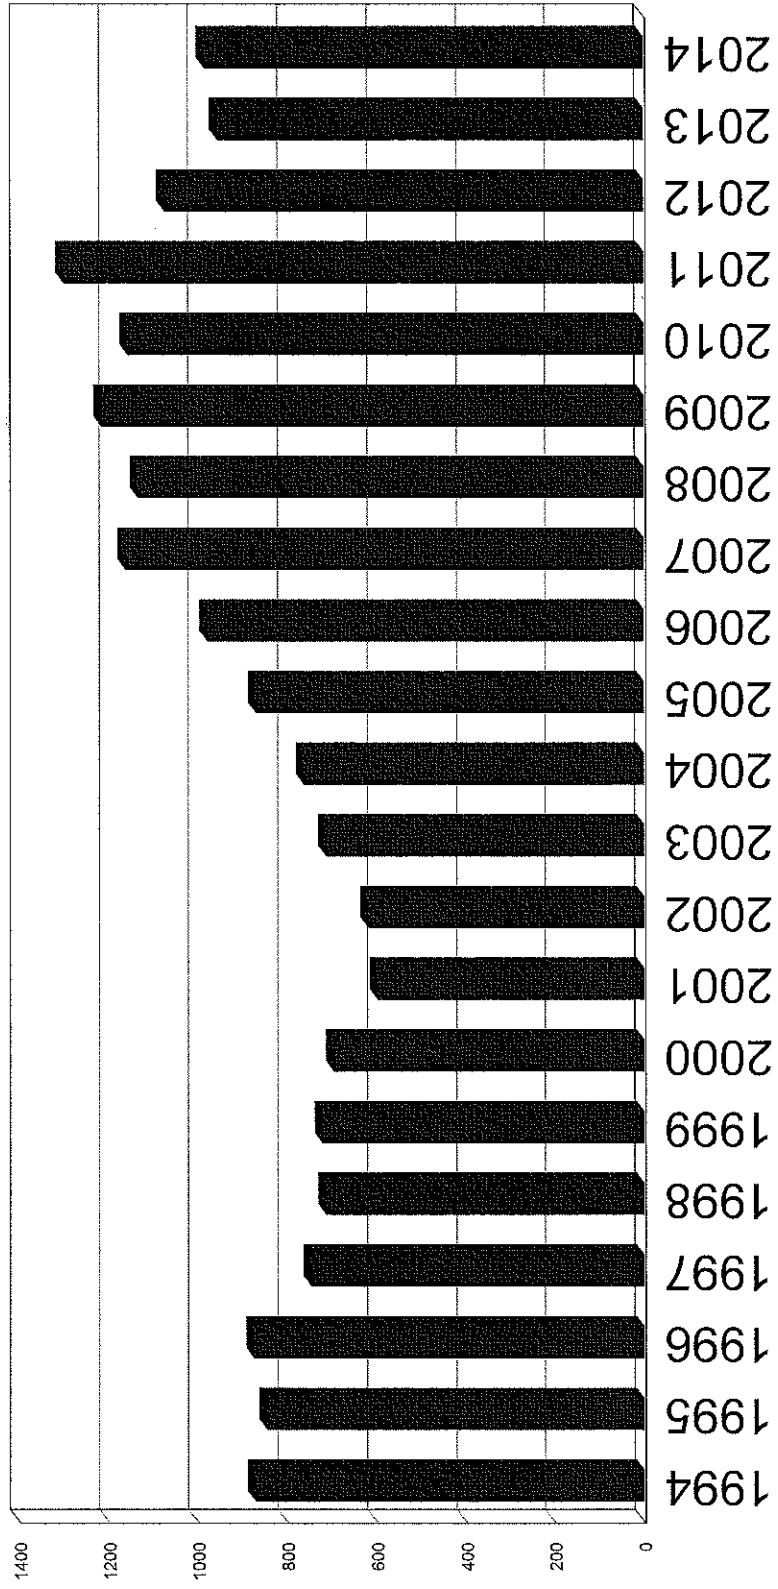

During a short time between 1994 and 2014, there were three basic degrees offered, bachelor degree, associate degree and diploma, graduating a total of 18,936 students. The last diploma program, St. Mary's Hospital, graduated its last class in 1996. At that time, St. Mary's joined with Marshall University to offer an Associate Degree in nursing.

The highest number of graduates occurred in 2009 when 1,216 candidates graduated from West Virginia nursing programs. The lowest number of graduates was in 2001 with 598 graduates. Should the historical cycle of graduates repeat itself, there should be another increase in the number of graduates over the next four to five years. The prediction for a scarcity of registered professional nurses due to the aging workforce, retirement of nursing educators and a decrease in the number of persons interested in nursing as a career is still a concern even though the current economy has resulted in a shift back to work. RNs working part time are now working full time, those in retirement have returned to work and those planning to retire are waiting until the economy is better. Though more males are choosing nursing as a career, the profession remains predominantly female.

YEARS	1994	1995	1996	1997	1998	1999	2000	2001	2002	2003

NURSING (RN) GRADUATES IN WEST VIRGINIA BY DEGREE

Between 2004 and 2014 a total of 11,593 students graduated. The total number of graduates include; Baccalaureate graduates 5,776 and Associate Degree graduates 5,817.

The graph on the opposite page reflects information for this twenty year period. The graph does not include registered professional nurses pursuing additional nursing degrees, such as a Bachelor degree after obtaining an Associate degree, or a Master's or Doctoral degree.

DISCIPLINE

The disciplinary section is constantly being reviewed to ensure efficiency. The disciplinary chart shows the number of final actions taken against a licensee since 2004. The chart does not indicate the actual number of cases that the disciplinary section has to review. It is safe to say that between 2004 and 2014 there were over 150 complaint driven disciplinary cases reviewed per year. In addition, there are hundreds of other cases that were reviewed by this department that were not true disciplinary cases. For instance, if an applicant, whether it is a first time applicant or endorsement or renewal applicant, indicates a criminal conviction, a drug or alcohol addiction or provides any other negative answer on the application, then that application is passed on to the disciplinary section. Some of these instances result in disciplinary action, but most do not. Yet, there is still a great amount of time and effort put into investigating the individual. There are also a great amount of resources utilized to investigate complaints which are ultimately dismissed. Although no action is taken in these cases, in order to determine a dismissal is warranted, the time and effort spent investigating the allegations is significant. Also, many of the complaints against licensees are resolved by way of consent agreement. This means that the disciplinary section is constantly monitoring licensees to ensure compliance with the agreement. Further, with the change in the child support laws, affirmative responses to these questions are also passed along to the disciplinary section.

The pie chart indicates final actions taken between 2004 and 2014. However, there were many more cases reviewed during this time that required further review by the Disciplinary Department. The disposition of the disciplinary cases includes 63 Reprimands, 284 Probations, 290 Suspensions, 5 Revocations, 22 Surrenders, 179 Denials and 671 Dismissed After Investigation. The Board also holds contested case hearings. Between 2003 and 2013, there were 19 hearings held.

A licensing system developed by IS&C permits tracking of licensing activities. Board staff can now track the number of applications reviewed by each department. During the last fiscal year the Discipline Department reviewed 906 applications. This review included 138 Exam Applications, 122 Endorsement Applications, 149 Reinstatement Applications, and 497 renewal applications.

ENDORSEMENT ACTIVITY

Registered professional nurses may obtain a license in another state through the process of endorsement. Each state has its own endorsement application and process, which includes a verification of licensure from another Board of Nursing. In the endorsement process, a Board of Nursing from another state accepts the nursing credentials validated by the original state of licensure. Some states also require verification of licensure from each state the person ever held a license. The verification is an official document which validates licensure, exam results (only provided by the original state of licensure), method of licensure (whether by exam or endorsement), and if there are any criminal convictions, disciplinary actions taken or complaints pending against the license.

Registered professional nurses may hold a nursing license in several states at the same time. Nurses living close to state borders and nurses traveling to various places are included in this group.

This WVR Annual Report for 2013-2014 will address the following areas:

• Consultant Summary	page 3.
• Mission Statement	page 4.
• Initiatives to Enhance Safety	page 4.
• Utilization Summary	page 5.
• Demographic data summary	page 6.
• WVR Electronic Participant Records	page 7.
• 2013-2014 Accomplishments	page 7.
• Accountability	page 7.
• Summary	page 8.

Consultant Summary

During the first 10 months of fiscal year of 2013-2014, the WVR office received and processed over 129 new referrals within its Intake Department. In addition to new referrals, WVR currently has 87 nurses on active/pending monitoring contracts. The WVR office and its employees continue to remain very busy communicating and collaborating with nursing employers, treatment providers/programs, nurse support group facilitators – all of whom surround each individual nurse in his/her local area.

Since July 2013, WVR has assisted over 129 nurses; most due to substance abuse and/or mental health conditions and a smaller number of nurses with physical impairment.

The WVR program is now in its 2nd year of operation and has become a referral and information support network focused on protecting consumers from unsafe nursing practitioners while also assisting nurses with a goal of rehabilitation and retention.

WVR's sole purpose is to protect the consumers of West Virginia from unsafe nursing practice. WVR's central mission is accomplished by way of formal and informal education initiatives, and case management monitoring services. In addition, WVR has begun developing networks of treatment providers and programs, as well as approved support groups throughout West Virginia.

The problem of impairment among healthcare practitioners and its impact on patient safety has remained of significant concern since the early 1980's. As the number of professionals with substance abuse and mental health issues increases, there is a growing need for accountable and effective programs to provide monitoring solutions. WVR is such a solution for the nursing profession here in West Virginia.

The American Nurses Association (ANA) estimates that 6-8% of nurses use alcohol or drugs to an extent that is sufficient to *impair professional performance*. In the early 1980's, ANA called out to the states to do three (3) things: to develop programs to assist colleagues with substance abuse and mental health conditions which could affect their ability to practice safely; to disseminate information about substance abuse and mental illness as common and treatable; and to do research.

The majority of Boards of Nurses across the USA have recognized that utilizing a discipline only approach was not the most effective approach to protect consumers. A national trend to develop alternative to discipline programs has occurred over the past twenty years. Many BON's witnessed that this new approach (nurse monitoring and recovery) not only protected the public (by removing practitioners from practice more quickly), but also coordinated successful rehabilitation efforts and monitored nurses with substance abuse and mental health conditions. Nurses who accept help and demonstrated safety to practice and progress in recovery, now had an opportunity to be retained in the profession. Programs like WVR hold participants accountable, help assure fitness for duty, and

allow advocacy by documenting safety to practice and progress in recovery. Currently 46 boards of nursing have nurse monitoring and support programs in place similar to RESTORE.

Mission Statement

The mission of WVR is to protect the public by providing a monitoring and recovery program for nurses with a substance use disorder or a qualifying mental health condition.

Initiatives to Enhance Safety

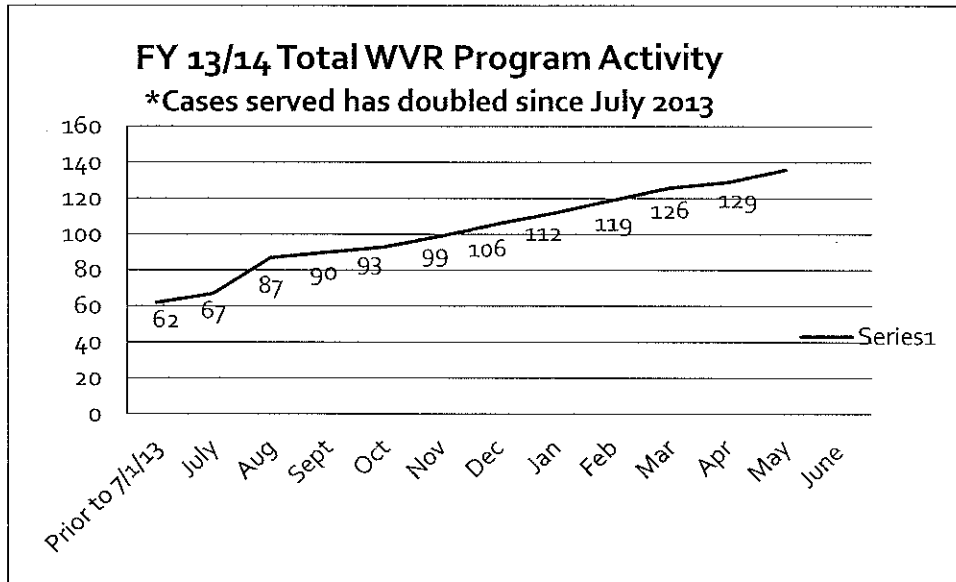

WVR's central mission is to enhance safety, specifically to protect the consumers of West Virginia from nursing licensees who may demonstrate impaired practice and/or impairment related arrests. Substance use disorders and qualifying mental health conditions are known to impact a nurse's ability to practice with reasonable skill and safety. Substance use disorders are the most common reason nurses are referred to and monitored by WVR.

Services provided by WVR include *prevention* of problems through education about such topics as: substance abuse issues; how to self report; and how to identify a fellow student and/or colleague. *Early intervention* occurs when WVR receives referrals following a DUI and/or pre-employment positive drug screen. In these cases the nurse may be in the early stages of a problem where substance use disorder education and diagnostic monitoring are effective.

Tertiary care takes place when a more serious substance use disorder is present and the nurse is referred for formal substance abuse/dependence treatment to a WVR provider/program. WVR does not perform medical assessment nor provide treatment. Rather, it refers nurse participants to treating providers and programs that have specific expertise with impaired professionals. The first step in the referral process is to immediately *refrain* the nurse from practice until a "fitness to practice" evaluation is performed, thus immediately protecting consumers. Following evaluation and determination of appropriate treatment, the nurse is subsequently referred and followed through the treatment process.

A formal monitoring agreement is formulated once treatment is complete or near completion. Each agreement is individualized to address the needs of the individual nurse along with identifying key support and employment parameters. WVR partners with worksite monitors, group facilitators and treating professionals who follow WVR nurse participants in their local areas. Throughout the monitoring agreement safety is assured by way of frequent random toxicology screening, and by obtaining progress reports from employers, treating professionals and support group facilitators. WVR case manager(s) follow each nurse participant closely and address issues that may arise during the duration of one's participation.

Utilization Summary

Total Participants under RESTORE Monitoring:

87

- Participants executed RESTORE Contracts
- Participants *pending* contracts

57

30

Cases closed over the past 10 months:

42

Reasons for case closure secondary to lack of follow-through, not meeting eligibility criteria, failure to complete treatment etc.

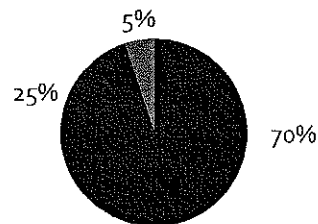

Note a conversion rate of 68% (87 referrals entering RESTORE vs. 42

not following through) is considered better than average in nurse monitoring programs across the USA.

Demographic Summary

FY 13-14 WVR Participants by Primary Diagnosis

■ Substance Use Disorders ■ Dual Diagnosis ■ Mental Health only

Top four specialties represented in nurses under contract:

1. Home Health
2. Medical-Surgical
3. ER/Trauma
4. Gerontology

Referral sources:

- | | |
|--|-----|
| ○ Board of Nursing | 63% |
| ○ Other (family members, treatment Providers, attorneys, self) | 37% |

Total Geographic areas represented:

- | | |
|----------------------------------|----|
| ○ WV Counties | 21 |
| ○ Counties in Neighboring States | 9 |

Top Four Identified Substance of choice(s):

1. Alcohol and/or alcohol in combination with other prescription drugs
2. Hydrocodone
3. Dilaudid and/or Dilaudid in combination with other prescription drugs
4. Loratab

WVR Electronic Participant Records

WVR utilizes a customized digital case management system managed by Affinity Online Solutions. Although a challenging transition, Affinity Online Solutions has allowed WVR to essentially go "paperless". All demographic data is captured in a more comprehensive manner in addition to the ability to receive quarterly monitoring reports on-line allows RESTORE to monitor compliance and progress in "real time".

Accomplishments 2013-2014 WVR

Over the past year, WVR Staff have completed the following initiatives.

- Complete update of all policy and procedures based on current "best practices"
- Revised all standard letters to match new policies and procedures
- Updated and enhanced Facilitator Manual
- Updated and revised Participant Manual based on newly revised policy and procedures
- Expanded electronic records system to include on-line progress reporting by Nurse Support Group Facilitators and worksite monitors
- Standardized and improved toxicology testing system for participants per NCSBN standards
- First Annual RESTORE Conference and mandatory Facilitator training (scheduled for September 25-26)
- Developed applications for prospective nurse group facilitator(s) and treatment providers
- Updated RESTORE web page with current forms and information.

Accountability

WV Restore ensures accountability by performing regular random performance assessments and case reviews. Remaining transparent and accountable to the WV Board of Examiners for Registered Professional Nurses and other key stakeholders is crucial to WVR reputation and success. WVR seeks out regular accountability and performance measure data for feedback on quality of services and areas for improvement.

The following accountability measures are in place:

- Annual Performance Audit by WV Board of Examiners
- Quarterly review of random case files by RN external QA auditor
- Monthly performance measure reporting
- Clinical case review on an on-going basis by WVR's Clinical Director
- Review of all cases on medication management by consulting Medical Director

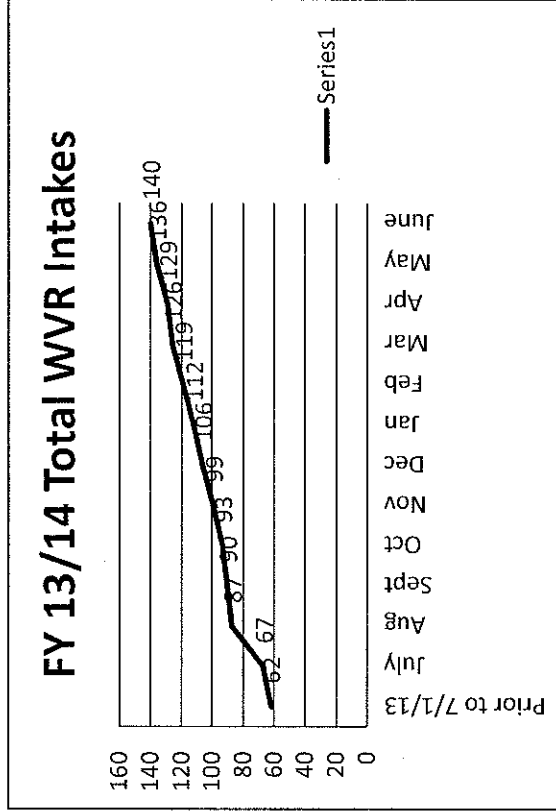

Summary

The past year has been a very busy one for WVR. Many important initiatives have been accomplished which have strengthened and updated the services provided. The WVR staff is proud to do the work of protecting consumer safety while rehabilitating and retaining nurses in West Virginia's health care system. We remain open to feedback for areas of continued improvement and look forward to serving the West Virginia Board of Examiners in a continued partnership. We thank you for allowing us the privilege to serve.

WV Restore Quarterly Performance Measures and Standards Report 2013-2014 July 1 2013 to June 30 2014					1st Quarter	2nd Quarter	3rd Quarter	4th Quarter
Confidentiality releases executed					100%	100%		
Non compliant intakes reported to board w/i 10 days					100%	100%	100%	90.27%
Non compliant contracted participants referred to Board w/i 10 days					100%	100%	100%	100.00%
Contracted participants that successfully complete the program					0	0	0	0
Program completers complete exit survey w/i 60-90 days					0	0	0	0
Completers give program positive approval rating					0	0	0	0
WVR impaired referrals offered an evaluation within 10 days					100%	100%	100%	75.00%
Positive UDS reviewed within 24 hours of receipt of report					100%	100%	100%	100.00%
Contracted participants (required to attend a facilitated group) that are in compliance					100%	90%	90%	78.13%
Psychiatric reports received and reviewed w/i 7 days					100%	100%	100%	100.00%
Checkups reviewed w/i 7 days					100%	100%	100%	100.00%
Grievances submitted and addressed w/i 30 days					0	0	0	0
Justifications								
Confidentiality releases executed	Out of 72 participant files 7 participants have not returned the required release							
WVR impaired referrals offered an evaluation within 10 days	Out of 12 participants 3 were not offered an evaluation within 10 days. One was being monitored by another state, one was engaged in treatment at time of intake, and one scheduled an appointment with an evaluator prior to being given options.							
Contracted participants (required to attend a facilitated group) that are in compliance	Out of 32 participant files 7 facilitated support group reports have not been received therefore, there is no documentation to show participant is in compliance. (All 7 reports are from the same facilitator and has been contacted several times regarding these reports)

DIALYSIS TECHNICIANS

The law relating to regulating Dialysis Technicians was first passed in 2005. An emergency rule was approved in 2005 and the final rule was approved in the 2007 Legislative session. There are currently one hundred sixty-two (162) active Certified Dialysis Technicians in West Virginia. Temporary permits have been issued to sixty-one (61) persons. Dialysis Technician Training Programs are also under the authority of the Board. Thirty-one (31) programs have been approved by the Board. Receipts for the fiscal year total \$50,945.00. The first year had the highest amount of receipts due to the initial certification of all dialysis technicians and the initial approval of training programs. The anticipated receipts for the next fiscal year will be from certification renewal, and perhaps one or two new education programs. Therefore, the anticipated receipts for FY 2015 will be approximately \$43,000.00. These fees will come from certification renewals and continued approval of dialysis training programs. The FY 2014 expenditures total \$27,057.87. A section of the Board's web site is dedicated to Dialysis Technicians. The Board and staff are available to answer any questions related to the regulation of dialysis technicians in West Virginia.

DIALYSIS TECHNICIAN TRAINING PROGRAMS
APPROVED BY THE BOARD

Fresenius Medical Care of North America --

- Appalachian Dialysis (Beckley)
- Beckley -- Classroom site
- Bruceston Mills
- Cabell Huntington
- Charleston -- Classroom site
- Charles Town (Kearneysville)
- Clarksburg
- Elkins
- Fairmont -- Classroom site
- Greenbrier (Fairlea)
- Hagerstown, Maryland
- Hurricane
- Kanawha Co. (Dunbar)
- Martinsburg
- Morgantown
- Mountain Ridge (Summersville)
- Oak Hill
- Oceana
- Princeton (FMC Mercer Co)
- Ripley (no trainees)
- River Hills (HIMG) Huntington
- Two Virginia's (Bluefield)
- Welch (Wytheville VA Education Center)
- Weston

DaVita --

- Charleston
- Lewisburg
- Logan
- Parkersburg

Greater Charleston Dialysis now DaVita

Wheeling Renal Care --

- New Martinsville Dialysis
- Wheeling Dialysis Center
