STATE OF WEST VIRGINIA
BOARD OF EXAMINERS FOR REGISTERED PROFESSIONAL NURSES
101 Dee Drive, Suite 102
Charleston, WV 25311-1620

December 1, 2015

Dear Honorable Governor Tomblin:

The West Virginia Board of Examiners for Registered Professional Nurses (Board) is pleased to submit the Annual Report which covers the activities during the 2014 and 2015 fiscal years.

For over one hundred years of nursing regulation the Board has been vested in their mission to protect the citizens of West Virginia through the regulation of the practice of registered professional nurses. At the end of the fiscal year there were 32,008 registered professional nurses regulated by the Board. Board members and staff provide presentations throughout the state in an effort to assure the most current information is available to those providing nursing care to those in West Virginia. The Board supports the role of advanced practice nurses in providing for the health care needs of West Virginia. Over 1048 advanced practice registered professional nurses have active Prescriptive Authority Privileges granted by the Board.

The Board also regulates Dialysis Technicians. There are 175 certified Dialysis Technicians in West Virginia serving the needs of the dialysis population.

The Board fully implemented West Virginia Restore, the recovery and monitoring program for registered professional nurses. Additional information about this program is located on pages 156-165. Current updated information regarding substance abuse education opportunities is included in the Board's news magazine and on its website.

The Board remains open for communications with other agencies, the public and licensees through an Open Forum time during each Board meeting, the newsletter, the phone system, mail, facsimile and the Internet with e-mail (rnboard@wv.gov) and web site (www.wvrnboard.wv.gov).

The Board and its staff are available to answer questions about this report or other matters pertaining to the regulation of registered professional nursing and dialysis technicians in the State of West Virginia.

On behalf of the Board President, Tara Hulsey, PhD, RN, CNE, FAAN and the members of the Board,

Sincerely,

A handwritten signature in blue ink that reads "Laura Skidmore Rhodes".

Laura Skidmore Rhodes
Executive Director

Overview of Activities 2015

The mission of the West Virginia Board of Examiners for Registered Professional Nurses (Board) is to promote and protect public health, safety and welfare through the regulation of the practice of registered professional nurses. Further, the Board is authorized to regulate the practice of Dialysis Technicians to protect public health, safety and welfare. The West Virginia Legislature has empowered the Board to perform a number of functions to ensure this mission is accomplished. In addition to regulating registered professional nurses, the Board regulates registered professional nurses who are also Advanced Practice Registered Professional Nurses (APRN), and Limited Prescriptive Authority. The Board uses the Pharmacy Database to assist with complaint investigations. The Board assures its recovery and monitoring program WV Restore maintains current standards in assisting nurses with substance misuse problems and qualifying mental health conditions. Early recognition of an issue and immediate intervention will provide the nurse with a better opportunity for rehabilitation and continuation of employment. There are currently 94 registered professional nurses enrolled in this program.

The Board is authorized to, among other things, adopt and amend rules and regulations, accredit and prescribe standards for educational programs preparing persons for registered professional nursing licensure, examine, license and renew licenses, and conduct hearing(s) upon charges calling for discipline of a licensee or revocation or suspension of a license.

The Board is also authorized to adopt and amend rules and regulations, accredit and prescribe standards for educational programs preparing persons for Dialysis Technician certification, certify and renew certifications, and conduct hearing(s) upon charges calling for discipline of a certification or revocation or suspension of a certification.

In order to fulfill its mission the Board has developed specific goals. These goals are found on page 8 of this report. Included with the Board's goals and objectives are performance measures.

In 2004 the West Virginia Center for Nursing (Center) was created to establish a statewide strategic plan to address the nursing shortage in the state and to facilitate recruitment and retention of nurses. The Center is funded in part by a supplemental fee added to the license renewal for RN's and LPN's. The Board continues to work with and support the efforts of the Center.

This overview provides a brief description of the Board's activities over the past year in the fulfillment of its mission. Also provided with this report are statistical data which show the Board's licensure statistics over the past two years. The majority of these reports begin on page 49. Additionally, to give an even broader view of the Board's activities, included with this year's report are tables and charts covering a ten (10) or twenty (20) year time period revealing how the number of registered professional nurses has increased or decreased during the time frame, the number of students that have graduated from nursing programs throughout the state during this time, disciplinary actions that have taken place, as well as other interesting facts regarding the functions of the Board. This information can be found throughout the Report. A Graph Table of Contents is provided for the reader's convenience (see page iii).

One of the most important ways the Board achieves its mission is ensuring that it is easily accessible to the public, its licensees and to other state and national agencies. To that end, the Board convenes an average of 10 days a year, with Committees meeting an additional 4 days a year. The law requires one meeting per year. In accordance with the law, Board meeting notices are filed timely with the Secretary of State. The agenda for each meeting is also provided to each nursing school, to Directors of Nursing across the state, and interested parties. A list of Board meeting dates is provided in this report on page 12. Notice of the meeting is also included in the Board newsletter, which is published at least twice a year and mailed to every licensee and to those persons expressing an interest in receiving the newsletter, and on the web site. A copy of each newsletter is located on the Board's web site at www.wvrnboard.wv.gov.

At the beginning of each Board meeting there is an Open Forum. Open Forum allows anyone in attendance at the meeting the opportunity to raise issues of concern with the Board.

The Board office is available by telephone twenty four hours a day, seven days a week through a voice mail system 1-877-743-6877 (NURS). During regular business hours, Monday through Friday, the office is staffed to respond to questions by phone, facsimile, e-mail, U.S. mail and from persons coming to the office. A list of all Board staff is on page 13 of this report. Additional avenues the Board utilizes to remain accessible to the public are by way of e-mail and web site. The Board's e-mail address is rnboard@wv.gov. The web site address is www.wvrnboard.wv.gov. Most of the Board's applications are available for downloading from the web. The Board continues to evaluate ways to incorporate e-gov and online applications. All licensure renewals were completed online in 2015.

One of the main functions of the Board in the fulfillment of its mission is the regulation of the nursing programs in the State of West Virginia. Currently, there are 22. A list of the schools of nursing providing both baccalaureate and associate degrees, as well as other programs not requiring Board approval, is provided in this report on pages 24 through 30. Also included in this report are statistics on the number of graduates from baccalaureate and associate degree programs and statistics on licensees holding advanced degrees.

The accreditation process of a school of nursing goes far beyond the initial accreditation of that school. It is an ongoing process. Each year every Board approved program is required to submit an Annual Report to the Board for review. The Annual Report covers every aspect of the program, from the financial status to the degrees held by instructors and most importantly the quality of the information being taught to the student. The Board also conducts a number of on-site visits to programs to have a hands-on view of the activity taking place at the school. During the on-site visit, Board representatives have the opportunity to view the quality of the information contained in the library for nursing students and to also speak with nursing students on campus regarding the nursing program. In FY2015 the Board performed 8 visits to campuses in the state for purposes of On-Site Accreditation visits and follow up visits.

Another Board function is to provide a test for graduates to successfully complete for initial licensure. Currently, that test is known as the National Council Licensure Examination - RN (NCLEX-RN). The candidate may take the computerized examination at any test center in the United States, U.S. Territories, or several countries across the world provided the state where they wish to hold initial licensure is designated, and an application specific to that state has been completed and approved.

The national pass rate for first time candidates taking the licensure examination during Calendar Year 2014 was 81.79%. West Virginia's percentage was 83.51% This percentage ranks West Virginia as twenty six (26) out of fifty-five (55) member board jurisdictions. This information is provided through a report from the National Council of State Boards of Nursing, Inc.

From the graduates who pass the licensing examination who are able to hold the title registered professional nurse, there are a number of individuals who pursue advanced certifications and practice in more specialized areas. The Board regulates advanced certifications and practice in more specialized areas. The Board regulates 2,337 nurses with

an Advanced Practice Registered Nurse (APRN) license. The APRN license was initiated July 1, 2013. The first renewal occurred this year and was accomplished online. This number includes more than 1,048 nurses having prescription writing privileges granted by the Board. A breakdown of this information is found on pages 84 through 87 of this report. As part of the prescription writing privilege application process, the Board of Medicine, the Board of Pharmacy, the Board of Osteopathy, and the Federal Drug Enforcement Agency are notified of each new prescriptive authority privilege issued.

Because nurses are continuing to specialize in different areas, the Board's approach to discipline continues to evolve. Disciplinary cases continue to increase in complexity. Board staff process a significant number of discipline related records. In past years the majority of complaints against registered nurses, resulting in action, involved the use, misuse and abuse of drugs and alcohol. Although these issues still make up the majority of the complaints, there is an increase in practice related issues, such as documentation errors and the lack of competency. Statistical information regarding the Board's disposition of complaints and disciplinary action taken over the past two (2) years is provided on pages 49 through 52 of this report. A pie chart on page 50 represents a summary of disciplinary action for the past ten years.

In order to completely fulfill its mission to protect the public, the Board recognizes the necessity in maintaining open communication with other related national and state agencies. In that regard, the Board always sends representatives to meetings of the National Council of State Boards of Nursing, Inc. (NCSBN) and is actively involved in the discussion and voting processes which occur at these meetings. The Executive Director, Laura Skidmore Rhodes, is a past President of the Board of Directors for NCSBN and currently serves on the Finance Committee. The current Board President was recently appointed to the Standards Setting Committee. A recent past Board Member, Dr. Mary Fanning, DNP, RN, was recognized as a Fellow in Regulatory Excellence. The Board's Associate Director, Dr. Robin Lewis, Ed.D, MSN, APRN FNP-BC is on the Advanced Practice Registered Nurse Committee.

The Board, in conjunction with NCSBN, developed an on-line continuing education program for registered professional nurses about the current WV law. This program offers two (2) continuing education hours which qualify for inclusion in the total twelve (12) hour requirement each year.

Locally, the Board keeps an ongoing alliance with the West Virginia State Board of Licensed Practical Nurses (LPN Board). Because the two agencies generally have to address similar topics and certainly in the employment arena they usually function together, it

is important to the Board to ensure that communication lines are open with this agency. In 1995, the Joint Nursing Regulatory Committee was formed to enhance communications between Board and the LPN Board, and between the Board and constituents. This committee led to the practice of holding a yearly Joint RN/LPN Board meeting. Together the two Boards publish a document entitled “Criteria for Determining Scope of Practice for Licensed Nurses and Guidelines for Determining Acts That May Be Delegated or Assigned by Licensed Nurses’ or simply the “Purple Book”. This document was recently revised.

Board members and staff are diligent in their efforts to assure Board accomplishes its mission and goals. Staff ensures that records reflecting the Board’s financial status are accurately maintained. This information is provided on pages 14 through 18 of this report. Board members are kept thoroughly apprised of all operations by Board staff.

The Board has regulated Dialysis Technician Education programs and Dialysis Technicians since 2005. There are 175 certified dialysis technicians in West Virginia. Information about Dialysis Technicians is provided on pages 166-187.

As previously stated, there continues to be a predicted decrease in the number of registered nurses available for employment in upcoming years. This decrease will not only affect West Virginia, but will be a national decrease. However, because of the size of our state, the effect on West Virginia will be easily felt. As reflected on pages 53 through 57 of this report, licensees have steadily endorsed out of West Virginia to other states, with the exception of FY05 when more nurses endorsed into WV. This is directly related to an influx of nurses preparing to assist a West Virginia hospital in the event of a strike. As the citizenship ages and illnesses increase, the need for registered nurses will increase. More nurses are still needed. Not having enough nurses makes it even more important for the West Virginia Board of Examiners for Registered Professional Nurses to fulfill its goal to protect the public.

When the impending nursing shortage was recognized, schools of nursing across the state increased enrollment in their nursing programs reflecting the slight increase in the number of registered nurses. There are approximately 2,938 students enrolled in West Virginia schools of nursing to obtain an initial degree in nursing.

The West Virginia Board of Examiners for Registered Professional Nurses continues to fulfill its mission of protecting the citizens of West Virginia through the regulation of the education and practice of 32,008 registered professional nurses, as well as the 175 Certified Dialysis Technicians.

Should you have any questions, suggestions or desire more information please contact this office at (304) 558-3596 or 1-877-743-NURSE (6877) or write to 101 Dee Drive, Suite 102, Charleston, West Virginia, 25311-1620. Our e-mail address is **rnboard@wv.gov** and our web site is **wvrnboard.wv.gov**.

**WEST VIRGINIA BOARD OF EXAMINERS
FOR REGISTERED PROFESSIONAL NURSES**

MISSION

The West Virginia Board of Examiners for Registered Professional Nurses established to promote and protect public health, safety, and welfare through the regulation of registered professional nurses and dialysis technicians.

GOALS AND OBJECTIVES

In accordance with WV Code §30-7-1 et seq. the Board will:

1. Function according to the Code of Conduct.
2. Be accessible to the public.
3. Assure the quality of the basic education process for registered professional nurses.
4. Assure the quality of the basic education process for the dialysis technician.
5. Assure initial and continuing competence of the registered professional nurse.
6. Assure initial and continuing competence of the dialysis technician.
7. Define the scope of practice for registered professional nursing and advanced practice nurses.
8. Define the scope of practice for the dialysis technician.
9. Provide a disciplinary process.
10. Review issues related to the nursing shortage.
11. Support the mission of the West Virginia Center for Nursing
12. Support the nurse health program, WV Restore.

STATUTORY HISTORY

The Board of Nursing is mandated under Chapter 30 of the West Virginia Code to:

PERFORMANCE MEASURES

1. Review and evaluate National Council of State Boards of Nursing registered nurse licensure examination scores of each program in relation to the standard.
2. Conduct on-site visits to at least two nursing education programs annually.
3. Issue licenses to qualified persons in a timely fashion.
4. Provide educational information to registered nurses, dialysis technicians, nursing education programs, employers and the public related to:
 - a) Discipline
 - b) Orientation to the Board
 - c) Advanced Practice
 - d) Licensure
 - e) Practice Issues
 - f) Conditions that affect an individual's safe practice
5. Process complaints from health care professionals and the public in a timely fashion.
6. Respond expeditiously to public requests related to Board operations.
7. Evaluate regulatory solutions to address borderless health care delivery.
8. Provide and evaluate the effectiveness of the nurse health program WV Restore.
9. Provide multiple modes of communication opportunities with the Board.
10. Establish a Practice Committee for discussion of practice issues as needed.
11. Seek legislative authority to obtain criminal background checks on all new applicants.

RECOMMENDED IMPROVEMENTS

Continue updating computer equipment and database program. Evaluate and provide personnel, equipment, and database programs.

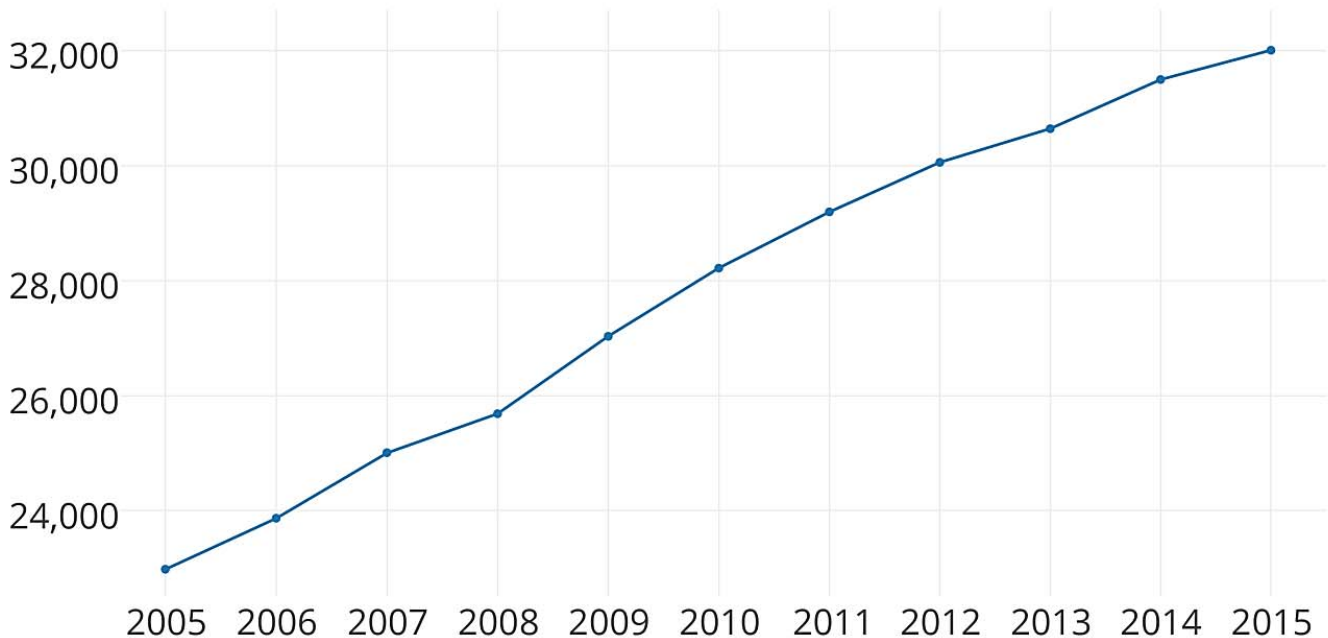

Reviewed and revised by the Board 6/14/1999; 6/13/2000; 6/13/2001; 6/12/2002; Reaffirmed 6/12/2003; Reviewed and revised by the Board 6/15/2004; 6/15/2005; 6/14/2006; 6/13/2007; Reaffirmed 6/12/2008; Reviewed and revised 6/17/09; Reviewed and revised 6/16/10; Reviewed and revised 6/17/11; Reviewed and revised 6/13/12; reviewed and revised 6/12/13; Reaffirmed 6/10/14; Reaffirmed 06/10/15.

Total number of registered professional nurses

At the end of FY2015 were 32,008 registered professional nurses holding an active West Virginia license. This is an increase of 9,027 since 2005. This number is 510 more than in FY2014. Registered Professional Nurses remain the largest group of licensed health care providers in West Virginia.

Receipts and Disbursements

The Board is required to be self-sustaining and does not receive any revenue from the State's General Revenue Fund. The bar graph indicates the receipts and disbursements since 2005. During FY2015 the fees received for the Center for Nursing (\$285,630) are transferred to the Center's fund, and fines (\$42,209) are transferred to the General Revenue Fund. Both amounts are represented separately on the receipts graph.

EDUCATION

The education section of the Board has grown significantly over the past ten years. One of the Board's function is to provide a test (NCLEX-RN) for graduates of accredited nursing programs to pass successfully for initial licensure. The education section reviews the applications and transcripts to assure qualifications are met. West Virginia NCLEX-RN pass rates are monitored annually. Advanced practice licensure requirements including midwifery and prescriptive authority are processed through the education section of the Board, assuring qualifications, credentials and educational requirements are met.

The Board is responsible for the regulation of West Virginia nursing programs preparing registered professional nurses for initial licensure. The Education section of the Board reviews reports, faculty qualifications, changes reported by the programs and performs accreditation site visits to assure the requirements in the law are met. Statistics such as program pass rates and graduate numbers are maintained by the education section of the Board.

The education section also serves to provide access to information related to the practice of registered professional nursing. Educational brochures, presentations and responding to practice questions via telephone, email and written requests are among the avenues the Board provides information.

Continuing education requirements for registered professional nurses are monitored by an auditing process for compliance with the law. Licensees are randomly selected for auditing of their continuing education completed during a reporting period. Auditing of licensees occurs after every reporting period. The education section also reviews any requests for waivers of the continuing education requirement. Continuing education sources may apply to become providers with the Board. Providers are audited for compliance with requirements in 19CSR11 annually.

GRADUATES OF SCHOOLS OF NURSING
PREPARING INDIVIDUALS FOR INITIAL LICENSURE
AS A REGISTERED PROFESSIONAL NURSE

1995 - 2015

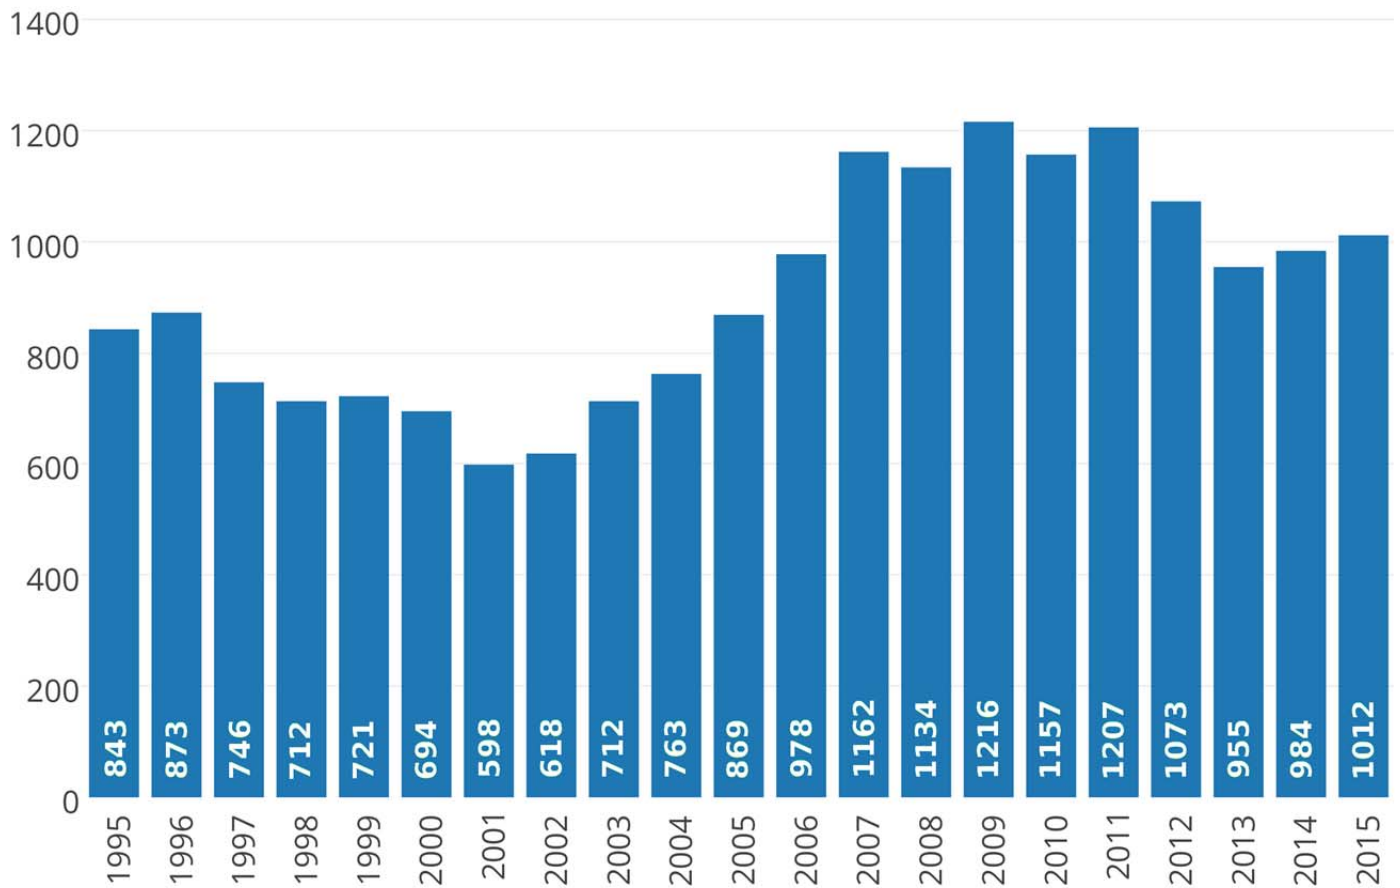

West Virginia has 21 schools of nursing which offer a total of 22 nursing programs preparing individuals for initial licensure. There are other programs which offer additional degrees for those already licensed. This graph shows the number of individuals graduating from schools of nursing in West Virginia to prepare for initial licensure. More schools are graduating nursing students at various times throughout the year in addition to the traditional spring graduation. Schools are now reporting the number of graduates in a calendar year.

During a short time between 1995 and 2015, there were three basic degrees offered, bachelor degree, associate degree and diploma, graduating a total of 18,936 students. The last diploma program, St. Mary's Hospital, graduated its last class in 1996. At that time, St. Mary's joined with Marshall University to offer an Associate Degree in nursing.

The highest number of graduates occurred in 2009 when 1,216 candidates graduated from West Virginia nursing programs. The lowest number of graduates was in 2001 with 598 graduates. Should the historical cycle of graduates repeat itself, there should be another increase in the number of graduates over the next four to five years. The prediction for a scarcity of registered professional nurses due to the aging workforce, retirement of nursing educators and a decrease in the number of persons interested in nursing as a career is still a concern even though the current economy has resulted in a shift back to work. RNs working part time are now working full time, those in retirement have returned to work and those planning to retire are waiting until the economy is better. Though more males are choosing nursing as a career, the profession remains predominantly female.

NURSING (RN) GRADUATES IN WEST VIRGINIA ALL DEGREES

All Degrees 1995-2015

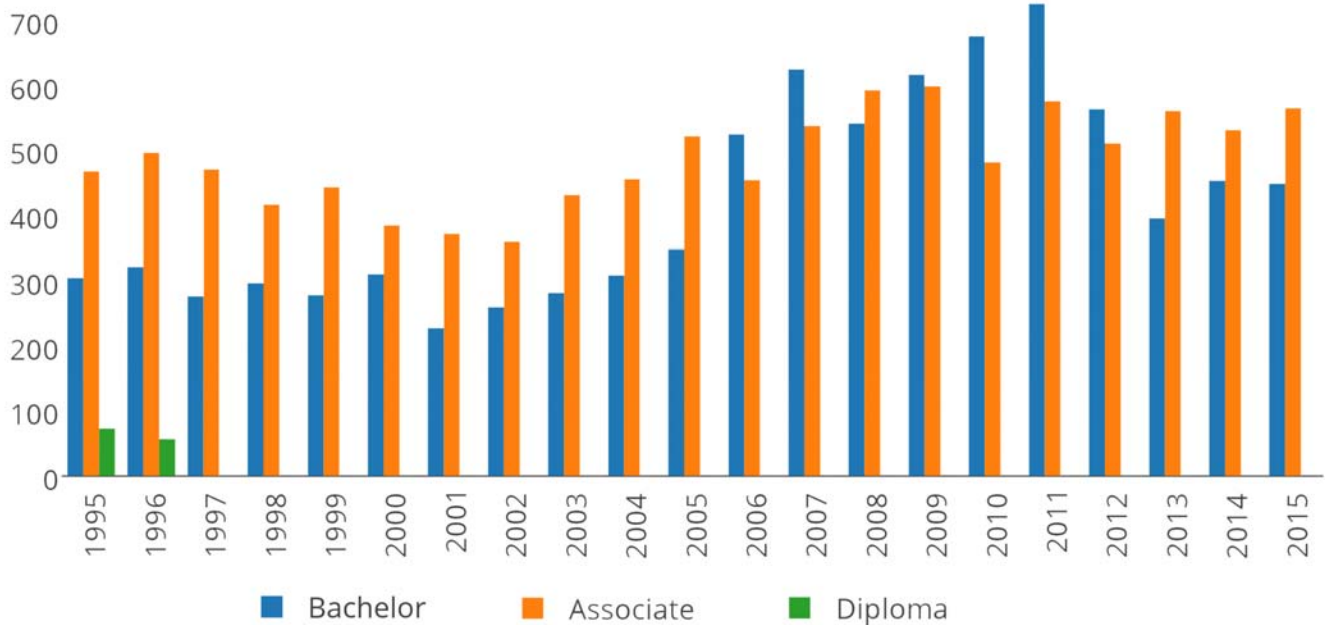

NURSING (RN) GRADUATES IN WEST VIRGINIA BY DEGREE

Between 2005 and 2015 a total of 11,747 students graduated. The total number of graduates includes 5,916 Baccalaureate graduates and 5,926 Associate Degree graduates.

The graph below reflects information for the previous twenty year period. The graph does not include registered professional nurses pursuing additional nursing degrees, such as a Bachelor degree after obtaining an Associate degree, or a Master's or Doctoral degree.

DISCIPLINE

The disciplinary section is constantly being reviewed to ensure efficiency. The disciplinary chart shows the number of final actions taken against a licensee since 2005. The chart does not indicate the actual number of cases that the disciplinary section has to review. It is safe to say that between 2005 and 2015 there were over 150 complaint driven disciplinary cases reviewed per year. In addition, there are hundreds of other cases that were reviewed by this department that were not true disciplinary cases. For instance, if an applicant, whether it is a first time applicant or endorsement or renewal applicant, indicates a criminal conviction, a drug or alcohol addiction or provides any other negative answer on the application, then that application is passed on to the disciplinary section. Some of these instances result in disciplinary action, but most do not. Yet, there is still a great amount of time and effort put into investigating the individual. There are also a great amount of resources utilized to investigate complaints which are ultimately dismissed. Although no action is taken in these cases, in order to determine a dismissal is warranted, the time and effort spent investigating the allegations is significant. Also, many of the complaints against licensees are resolved by way of consent agreement. This means that the disciplinary section is constantly monitoring licensees to ensure compliance with the agreement. Further, with the change in the child support laws, affirmative responses to these questions are also passed along to the disciplinary section.

The pie chart indicates final actions taken between 2005 and 2015. However, there were many more cases reviewed during this time that required further review by the Disciplinary Department. The disposition of the disciplinary cases includes 54 Reprimands, 302 Probations, 330 Suspensions, 6 Revocations, 32 Surrenders, 179 Denials and 766 Dismissed After Investigation. The Board also holds contested case hearings. Between 2005 and 2015, there were 14 hearings held.

A licensing system developed by the Office of Technology permits tracking of licensing activities. Board staff can now track the number of applications reviewed by each department. During the last fiscal year the Discipline Department reviewed 857 applications. This review included 101 Exam Applications, 83 Endorsement Applications, 128 Reinstatement Applications, and 545 renewal applications.

ENDORSEMENT ACTIVITY

Registered professional nurses may obtain a license in another state through the process of endorsement. Each state has its own endorsement application and process, which includes a verification of licensure from another Board of Nursing. In the endorsement process, a Board of Nursing from another state accepts the nursing credentials validated by the original state of licensure. Some states also require verification of licensure from each state the person ever held a license. The verification is an official document which validates licensure, exam results (only provided by the original state of licensure), method of licensure (whether by exam or endorsement), and if there are any criminal convictions, disciplinary actions taken or complaints pending against the license.

Registered professional nurses may hold a nursing license in several states at the same time. Nurses living close to state borders and nurses traveling to various places are included in this group.

Table of Contents

This WVR Annual Report for 2014-2015 will address the following areas:

- Consultant Summary page 3.
- Mission Statement page 4.
- Initiatives to Enhance Safety page 4.
- Utilization Summary page 5.
- Demographic data summary page 6.
- WVR Electronic Participant Records page 7.
- 2014-2015 Accomplishments page 7.
- Accountability page 7.
- Summary page 8.

Consultant Summary

The West Virginia Restore (WVR) program for registered professional nurses has as its primary purpose *to protect the consumers of West Virginia from unsafe nursing practice*. This central mission is accomplished by way of formal and informal education initiatives, and case management monitoring services. The WVR program has become a referral and information support network focused on protecting consumers from unsafe nursing practitioners while also assisting nurses with a goal of rehabilitation and retention.

WVR continues to develop approved networks of treatment providers and programs, as well as approved support groups throughout West Virginia. Now in its third year of operation, *Restore* is becoming “known” throughout the state and receives referrals from a wide range of key stakeholders, including nursing employers, treatment providers, the West Virginia Board of Registered Professional Nurses (WVBOERP) and self referrals from individual nurses seeking help.

Since its inception the WVR office has received and processed well over 200 referrals. In addition to new referrals, WVR currently has 94 nurses on active/pending monitoring contracts. The WVR office remains very busy communicating, providing education and collaborating with nursing employers, treatment providers/programs, nurse support group facilitators – all of whom surround each individual WV Restore nurse participant with monitoring and support in his/her local area.

The problem of impaired practice among nursing professionals, secondary to substance use disorders, is not a new one; its impact on patient safety has remained of significant concern since the early 1980’s. As the number of professionals with substance abuse and mental health issues increases, there is a growing need for accountable and effective programs to provide monitoring solutions. WVR is such a solution for the nursing profession in West Virginia.

The American Nurses Association (ANA) estimates that 6-8% of nurses use alcohol or drugs to an extent that is sufficient to *impair professional performance*. In the early 1980’s, ANA called out to the states to do three (3) things: to develop programs to assist colleagues with substance abuse and mental health conditions which could affect their ability to practice safely; to disseminate information about substance abuse and mental illness as common and treatable; and to do research.

The majority of Boards of Nurses across the USA have recognized that utilizing a discipline only approach was not the most effective approach to protect consumers. A national trend to develop alternative to discipline programs has occurred over the past twenty years. Many BON’s witnessed that this new approach (nurse monitoring and recovery) not only protected the public (by removing practitioners from practice more quickly), but also coordinated successful rehabilitation efforts and monitored nurses with substance abuse and mental health conditions. Nurses who accept help, demonstrate safety to practice, and progress in recovery, now have an opportunity to be retained in the

profession. Programs like WVR hold participants accountable, help safeguard fitness for duty, and allow advocacy by documenting safety to practice and progress in recovery. Currently 46 boards of nursing have nurse monitoring and support programs in place similar to RESTORE.

Mission Statement

The mission of WVR is to protect the public by providing a monitoring and recovery program for nurses with a substance use disorder or a qualifying mental health condition.

Initiatives to Enhance Safety

Substance use disorders and qualifying mental health conditions are known to impact a nurse's ability to practice with reasonable skill and safety. Substance use disorders are the most common reason nurses are referred to and monitored by WVR.

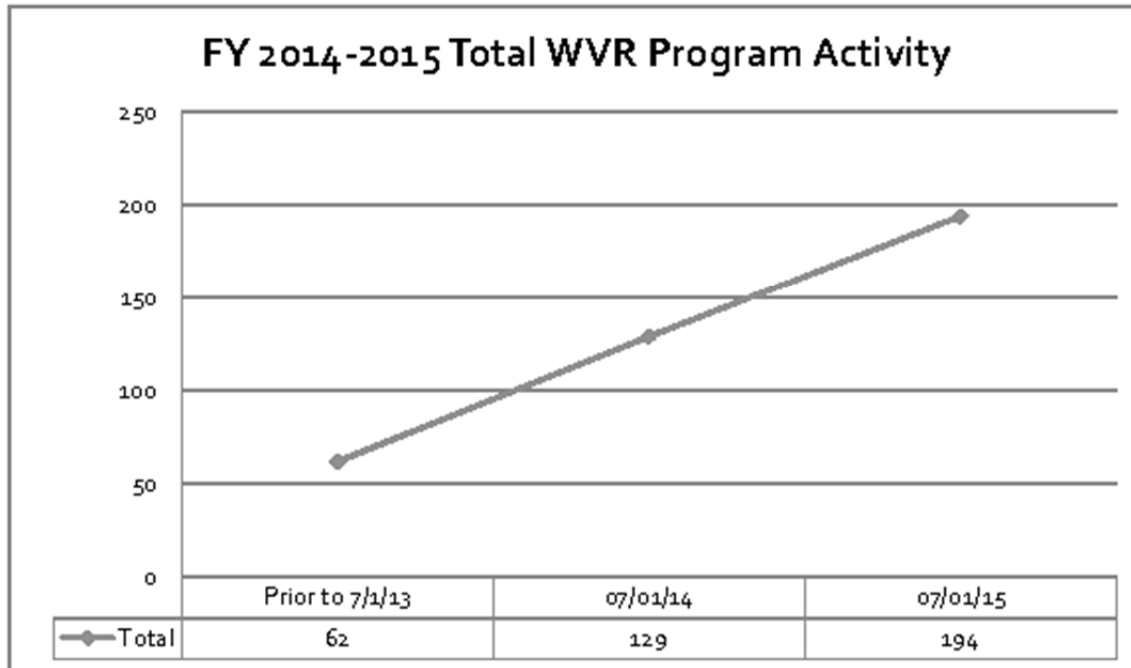

Services provided by WVR include *prevention* of problems through education about such topics as: substance abuse impact on patient safety; how to identify a fellow student and/or colleague with fitness concerns, and what steps are appropriate to take to protect patient care while also offering assistance to the nurse. In addition, WVR has begun offering evidenced based supervisory training which helps with skill development and increases supervisor confidence.

Early intervention occurs when WVR receives referrals such as a pre-employment positive drug screen or first DUI charge. In these cases the nurse may be in the early stages of a problem where substance use disorder education and diagnostic monitoring are effective.

When a more serious substance use disorder presents the nurse is referred for formal substance abuse/dependence treatment to a WVR provider/program. WVR does not perform medical assessment nor provide treatment. Rather, it refers nurse participants to treating providers and programs that have specific expertise with impaired professionals. The first step in the referral process is to immediately *refrain* the nurse from practice until a "fitness to practice" evaluation is performed, thus immediately protecting consumers. Following evaluation and determination of appropriate treatment, the nurse is subsequently referred and followed through the treatment process. This comprehensive intervention for nurses with chronic substance use disorders falls under *Tertiary care*.

A formal monitoring agreement is executed on all nurses who participate in Restore. Each agreement is individualized to address the needs of the individual nurse along with identifying key support and employment parameters. WVR partners with worksite monitors, group facilitators and treating professionals who follow WVR nurse participants in their local areas. Throughout the monitoring agreement safety is assured by way of frequent random toxicology screening, and by obtaining progress reports from employers, treating professionals and support group facilitators. WVR case manager(s) follow each nurse participant closely and address issues that may arise during the duration of one's participation.

Utilization Summary

Total Participants under RESTORE Monitoring:

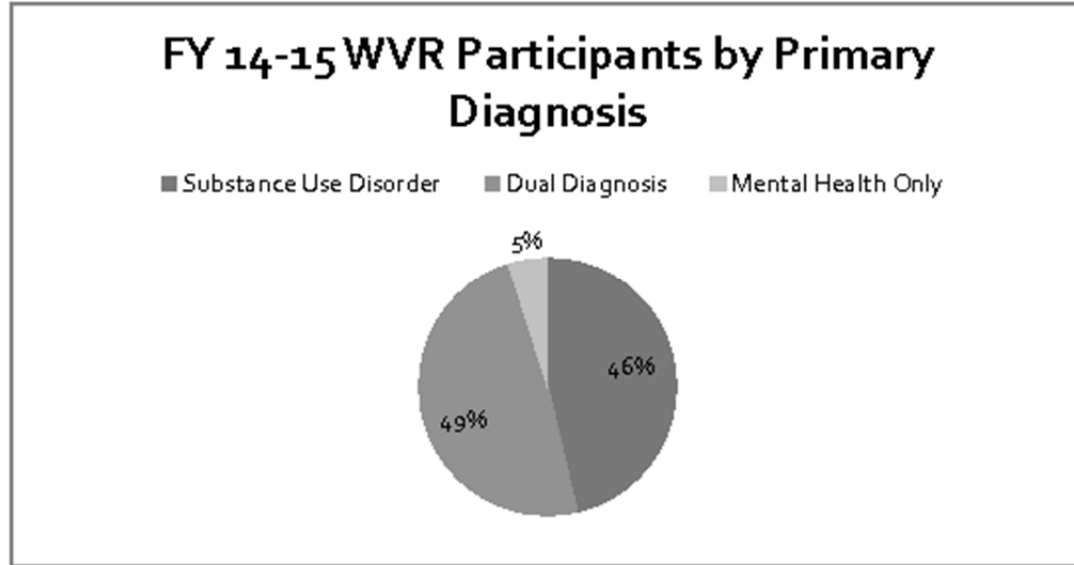

Participant executed RESTORE Contracts 94

Includes *pending* contracts (40)

Cases closed over the past 10 months: 33

Reasons for case closure secondary to lack of follow-through, not meeting eligibility criteria, failure to complete treatment etc.

Demographic Summary

Top four specialties represented in nurses under contract:

1. ER Trauma
2. Medical-Surgical
3. Critical Care (ICU/CCU)
4. Gerontology

Referral sources:

- | | |
|---|-----|
| ○ Board of Nursing | 59% |
| ○ Other (family members, treatment providers, attorneys, self, employers) | 41% |

Total Geographic areas represented:

- | | |
|----------------------------------|----|
| ○ WV Counties | 30 |
| ○ Counties in Neighboring States | 12 |

Top Three Identified Substances of choice:

1. Alcohol and/or alcohol in combination with other prescription drugs
2. Lortab
3. Dilaudid

WVR Electronic Participant Records

WVR continues to utilize a customized digital case management system managed by Affinity Online Solutions. Monitoring and all demographic data is captured in a comprehensive manner. This system also permits monitoring sources locally (employers and nurse support groups) to complete quarterly monitoring reports on-line in “real time”, allowing RESTORE to monitor compliance and progress on an on-going regular basis.

Accomplishments 2014-2015

Over the past year, WVR Staff have completed the following initiatives.

- Conducted the First Annual WV Restore 2 day conference for the nursing community.
- Expanded Nurse Support Group Facilitators Network by offering Skype groups for nurses in remote areas
- Developed and implemented additions to Affinity system to receive monitoring fees monthly from participants as required by the state Board
- Conducted semi-annual facilitator training
- Conducted first “Fit to Perform” evidenced-based training for nursing employers
- Conducted first annual Treatment provider/program training. Developed applications for prospective nurse group facilitator(s) and treatment providers (April 2015)
- Established a new “stand alone” RESTORE web page with current forms and information. (www.restore.org)
- Completed an update of all policies and procedures based on current “best practices”
- Revised all standard letters to match new policies and procedures
- Updated and enhanced Facilitator Manual
- Updated and revised Participant Manual based on newly revised policies and procedures

Accountability

WV Restore continues to ensure accountability by performing regular random performance assessments and case reviews. Remaining transparent and accountable to the WV Board of Examiners for Registered Professional Nurses and other key stakeholders is crucial to WVR's reputation and success. WVR seeks out regular accountability and performance measure data for feedback on quality of services and areas for improvement.

The following accountability measures are utilized:

- Evaluation was performed by WVBOERP staff utilizing NCSBN evaluation tool
- Annual Performance Audit conducted by WV Board of Examiners

- Quarterly review of random case files by external RN QA auditor
- Quarterly performance measure reporting to WVBOERP.
- Weekly clinical case review on an on-going basis by WVR's Clinical Director
- All cases on medication management are reviewed by consulting ASAM Medical Director

Summary

The FY 2014-2015 has been another year of solid program utilization and positive performance. Additional training has been implemented for WV treatment providers, employers and facilitators. Outreach continues as referrals to Restore expand to more counties. Skype groups are now in place for nurses in remote areas who participate in RESTORE. The WVR staff continues the work of protecting consumer safety while rehabilitating and retaining nurses in West Virginia's health care system.

Thank you for the opportunity to serve nurses in West Virginia and consumers whom receive health care.

DIALYSIS TECHNICIANS

There are currently one hundred seventy five (175) active Certified Dialysis Technicians in West Virginia. Temporary permits have been issued to six (6) persons. Dialysis Technician Training Programs are also under the authority of the Board. One (1) program has been approved by the Board. Receipts for the fiscal year total \$30,086.00. The anticipated receipts for the next fiscal year will be from certification renewal, and Dialysis Technicians Training Programs continued approval. Therefore, the anticipated receipts for FY 2016 will be approximately \$40,000.00. These fees will come from certification renewals and continued approval of dialysis training programs. The FY 2015 expenditures total \$21,486.08. A section of the Board's web site is dedicated to Dialysis Technicians. The Board and staff are available to answer any questions related to the regulation of dialysis technicians in West Virginia.
