From the Executive Director

Laura Skidmore Rhodes, MSN, RN, *Executive Director*

Greetings from the West Virginia RN Board of Nursing. We have had an exciting few months since I last wrote. The new license expiration date of October 31 has come and gone and for the most part was very successful. Over 80 percent of the licensees were renewed online, which makes the process quicker and easier for everyone. A list of those whose license lapsed is included in this magazine. Please take a moment and see if your name is on the list or the name of a colleague and remind them that to work as a nurse in West Virginia, a license is required.

During this past renewal season, we received several calls from nurses who said they don't read this publication and throw it away before opening it. As a result, they did not realize the expiration date had changed and didn't see the renewal inside the magazine. This is the third year the renewal has been included in the magazine. And, it will be sent in the news magazine next year as well. Please mark your calendar for next year and renew early and online!

There are several other important reasons for reading this publication. First, it is your source of information about Board activities and decisions that may affect your license. In this magazine, you will find the proposed rule related to Education Program Approval. The Board is proposing several changes to this rule. The rule has been discussed in a previous news magazine and was on the Web site during the Public Comment period. We encourage you to also check out our Web site on a regular basis as updates are provided there as well.

As we move into the winter season, a time of sharing and reflection, we hope the joys you find in nursing are doubled!

CONSENT AGREEMENTS, REPRIMANDS, SUSPENSIONS, REINSTATEMENTS

FY '09 • JULY '08 - JUNE '09

Prior to taking any actions related to the information on these page, contact this office for more information. You may contact the Board by phone at (304) 558-3596, by mail at 101 Dee Drive, Suite 102, Charleston, WV 25313-1620, or by e-mail at rnboard@state.wv.us. Requests for copies of documents must be made in writing. Clearly state your request and provide a name and address where the information may be mailed. The fee for documents is \$3.00 for the first page and 0.25 cents for each additional page. You will be invoiced for this amount.

A **Consent Agreement** is a settlement agreement between the Board and the licensee. The agreement is the result of an informal settlement of a complaint filed against a licensee. Consent Agreements with a probation requirement generally include certain restrictions in the practice of a registered professional nurse. Time is counted toward the required probationary period only while the individual nurse is working as a registered professional nurse. If an individual does not work for a period of time, this time is not counted toward the probation requirement. Therefore, some individuals may have a probation license longer than the dates may suggest.

A **reprimand** is the least restrictive disciplinary action the Board takes against a license. A licensee can practice if a reprimand has been issued against the license.

A **suspension** is generally the result of a violation of a contract between the licensee and the Board. A suspension can also be the resulting action taken by the Board in relation to discipline. A licensee cannot practice nursing while the license is suspended.

A **Summary Suspension** is an action taken by the Board when a licensee is considered an immediate threat to public safety. A licensee receiving a Summary Suspension cannot work as a nurse or represent themselves as such.

A **Reinstatement** occurs when a licensee has completed the discipline requirements. Reinstatement may return the license to the full unencumbered status or return a suspended license to a probation status, or any other action the Board deems appropriate.
